

Col. Theodore Roosevelt Will Speak in Kingston Fri., Oct. 24

"Whirlwind" Campaign of Republican Candidate For Governor Provides 185 Meetings in First 18 Days of Up State Tour—Night Meeting in Kingston.

Under the schedule prepared by the Republican State Committee, Colonel Theodore Roosevelt will speak at a Republican mass meeting in Kingston on Friday evening, October 24.

A speaking schedule prepared for Colonel Roosevelt in his campaign for governor of New York state which provides for 185 meetings to be held during the first eighteen days of his upstate campaign tour. Colonel Roosevelt during the campaign will have the aid of at least a dozen speakers supplied by the Republican National Committee. The Roosevelt speaking schedule will break all records for "whirlwind" campaigning. Most of the speeches will be made in the open air from the rear platform of a special train which will carry him through end to end of New York state.

The first open air speech of Colonel Roosevelt's campaign will be delivered Saturday night at Suffern, Rockland county, and his swing upstate will begin on Monday along the Hudson, with his first night meeting at Poughkeepsie next Monday.

The Roosevelt tour thus far arranged provides for the following night meetings:

October 6, Poughkeepsie; October 7, Schenectady; October 8, Plattsburgh; October 9, Ogdensburg; October 10, Watertown; October 11, Oswego; October 12, Syracuse; October 13, Rochester; October 14, Niagara Falls and Buffalo; October 15, Jamestown; October 16, Elmira; October 17, Auburn; October 18, Binghamton; October 19, Utica; October 20, Amsterdam; October 21, Middletown; October 22, Kingston; October 23, Albany and Troy.

Colonel Roosevelt is not a stranger to Ulster county. Several years ago he was the principal speaker at the Ulster County Fair held at Forsyth Park under the auspices of the Ulster County Farm and Home Bureau and he was given an enthusiastic reception. At that time he spoke on the United States Navy and preparedness, and created intense enthusiasm among his hearers.

The colonel's father, the late President Theodore Roosevelt, visited Kingston on several occasions, the first time in 1898 when he was a candidate for governor of New York state. At that time he was accompanied by a number of the Rough Riders whom he had led in battle in Cuba in the War with Spain. He spoke in Kingston in his later campaigns as a candidate for vice president and later as a candidate for president.

Zeppelin's Motor Delays Start

By Telegraph to The Freeman.
Friedrichshafen, Germany, Sept. 30.—Fresen motor trouble developed on the Zeppelin Z. R.-3, which will delay the departure of the giant airship for the United States. It had been hoped to start for Lakehurst, N. J., about next Sunday. The dirigible will be turned over to the United States navy at Lakehurst. The motor trouble, which is similar to the recent defection, was discovered while the airship was being carefully overhauled.

Former King Ferdinand, of Bulgaria, who is here visiting the Zeppelin plant, expressed intense admiration for the Z. R.-3.

"I wish I could fly to America in this ship," he said.

REFORM COST 40 POUNDS.
Butler's Activities Caused Weight To Drop To 118 Pounds.

By Telegraph to The Freeman.
Philadelphia, Sept. 30.—General Smedley D. Butler's return to City Hall to hear his fate from Mayor Kendrick probably will not occur before Friday, according to his physician, Police Surgeon Hubley R. Owen.

The extent to which the general's activities in cleaning up Philadelphia have sapped his strength was indicated by the announcement the fighting marine now weighs only 118 pounds, a loss of forty pounds since coming here.

General Butler's law enforcement activities were given great commendation last night when a resolution of praise was passed unanimously by 4,000 persons at the "town meeting" held to protest his dismissal as safety director.

Escapee Creek Rising.
People coming to this city by auto stages and automobiles from the Catskill mountain sections, this morning stated that owing to the steady and heavy downfall of rain since Monday morning the streams and the Kaopus creek were rising rapidly.

Absconder Gives Back All But \$300

Disappeared With \$80,000 Cash—Realized Enormity of Offense and Returned Stolen Goods—Blames Bad Liquor for Act.

By Telegraph to The Freeman.
Springfield, Mass., Sept. 30.—William J. Hanifin, absconding Union Trust Company guard, pleaded guilty to larceny of \$80,000 when arraigned in district court today before Judge Wallace R. Heady. All but \$300 of the money was returned to the bank by Hanifin, who voluntarily surrendered. The case was continued until October 17.

Although bank officials and officers of the Massachusetts Bonding Company have announced they will not prosecute Hanifin, Prosecuting Attorney John H. Madden declared he will continue the case against him.

Hanifin blamed bad liquor for his defection from the path of honesty. He said it was not until reaching Chicago he realized the gravity of his act and returned the money by express, at the same time telegraphing the bank that he was returning. The stolen funds reached here three hours after Hanifin. Hanifin disappeared Thursday after receiving a post office package containing \$80,000.

The bank and bonding company officials are expected to ask extreme leniency for Hanifin and it is believed his sentence, if one is meted out, will be a light one.

Banton Attacks Stock Exchange

New York District Attorney Says Exchange Has Failed to Keep Promise to Supervise Members' Operations for Protection of Public.

By Telegraph to The Freeman.
New York, Sept. 30.—Charging the New York Stock Exchange had promised to supervise its members' operations for protection of the public, District Attorney Banton today issued a statement declaring the exchange not only failed to do this in the case of the recent failure of Day & Heaton for more than \$2,000,000, but also had made no attempt to do so.

Banton declared the stock exchange, in causing defeat of a bill he introduced in the legislature, had blocked plans of the State Banking Department to supervise brokerage firm books, which would have prevented the alleged defalcation of George R. Christian, a member of the firm.

"If the stock exchange," said the statement, "cannot or will not protect the public against its own members, how can we expect any protection of the public against those who are not members? Fifty-one per cent of the brokerage firms of this city are not members of the stock exchange."

Banton declared the bill would be introduced again at the coming session of the legislature and expressed the hope that when it came up for passage "the members of the legislature will remember the Day & Heaton failure."

The statement was inspired, Banton said, by a letter, supposed to have been mailed to James H. Waterbury, another member of the firm of Day & Heaton. The letter was not signed, but Waterbury and other members of the firm said the handwriting apparently was that of their missing partner.

It was dated September 8, twenty-four days after Christian's disappearance, and said in part: "It is not only best for me but all hands concerned if this thing is hushed up and no effort made to catch me. I have nothing and it will do me no good to touch me, and my knowledge and testimony would be harmful to many and would be just what the district attorney is looking for."

COMPLETE GRADING GROUND FOR UPTOWN BUS TERMINAL

The grading of the grounds adjoining the Van-Ross Hotel on Crown street by the board of public works for a parking place for the auto busses that use the hotel as a terminal, has been completed and all the large busses now park there instead of on Crown street. Formerly, with from four to six of the large auto passenger stages lined up on both sides of Crown street, regular vehicle traffic through that block was impeded. Now passengers enter the busses from the hotel piazza while they are in the parking place and danger is eliminated.

MYERS BUYS BUS LINE AND GARAGE FOR \$15,000

The State Bus Line and garage of Rosendale was sold on Monday to Henry Myers who conducts the White Bus Line. The deal was consummated by John Dellar, real estate broker of Rosendale. The price paid was \$15,000.

Ottiger Resigns Federal Position.

By Telegraph to The Freeman.
Washington, Sept. 30.—Assistant Attorney General Albert Ottiger recently nominated for the attorney-generalship of New York by the Republicans, resigned today and his resignation was accepted by President Coolidge.

BIG LEAGUERS WILL APPEAR HERE TOMORROW

Rain or shine, rumors to the contrary, the Brooklyn National baseball club, the sensational baseball outfit of the season, by virtue of its fifteen straight wins, setting the season's record, will appear at the Kingston Fair Grounds Wednesday afternoon to play the Colonial team.

The local management has received word that the regular lineup will be here. The probable lineup starting the game will be: High, second base; Mitchell, short stop; Neils, left field; Fournier, first base; Stock, third base; Griffith, right field; Olsen, center field; Hargraves, catcher, and Vance, Grimes, Ruther, Ehrhardt or Hollingworth, pitchers.

The boys of the city will be given an opportunity of seeing the big league players in action. At the Y. M. C. A. tickets are on sale at a very low price for boys between the ages of 12 and 16 years. The game tomorrow will be called at 3:30 o'clock. Fitzsimmons and Jordan will be the umpires.

Park Is Held For Grand Jury

Brooklyn Man Arrested on Charge of Operating Car While Intoxicated—Nearly Collided With Dr. Connelly's Car—Barnes of Woodstock Arrested.

Fred J. Park of No. 425 Hicks street, Brooklyn, waived examination this morning in police court and was held by Judge Robert G. Groves to await the action of the grand jury on a charge of driving an automobile while intoxicated on Monday. From the police story of the arrest Park narrowly missed ramming the automobile of Dr. Daniel Connelly, city health officer, at the Rondout Creek Bridge. Dr. Connelly followed Park and called to Officer Murphy to arrest the Brooklyn man. Judge Groves fixed bail at \$500, which was furnished.

Harvey Barnes, 20 years old of Woodstock, was arrested Monday by Officer Leonard for conveying passengers for hire without having an omnibus or chauffeur's license. This morning Barnes explained to Judge Groves that his brother had a license but was away from home Monday when a member of the Woodstock colony in a hurry to catch the West Shore train asked him to bring him to Kingston. Judge Groves accepted the explanation and discharged Barnes with a warning not to carry passengers for hire hereafter without first obtaining the necessary license.

ELECTRIC COMPANY ERECTS GARAGE FOR EMPLOYEES

Work has been started on the construction of a large modern garage for the Kingston Gas & Electric Company, on the plot south of the Broadway main office, at the rear of the James A. Phelan store. The work is being done under the direction of W. E. Joyce Co., Inc., engineers and constructors with offices at 66 Prince street. It will be used by the employees who have automobiles.

New York State Is Battleground

Three Major Political Parties Focus Activities on Empire State—Western States To Get Speeches By Radio—All Big Speakers in East.

By Telegraph to The Freeman.
New York, Sept. 30.—The campaign generals of the three major candidates for the presidency decided today to focus their activities upon New York state for the present.

Seemingly they took their cue from Senator Robert M. LaFollette, who a week ago, said he regarded this as the spot where the election would be won and he would, therefore, make more of his important speeches in the state.

The Republican and Democratic strategists voted to let the radio spell-bind 47 states while the silver tongues that were to have crackled out there are being brought to New York to help Colonel Theodore Roosevelt and Governor Alfred E. Smith, Republican and Democratic candidates, respectively, for governor of New York.

Colonel Roosevelt is setting an example for the brigade of orators that will assist him by undertaking to deliver 185 speeches in 18 days.

Governor Smith had hoped to get out and stir things up for John W. Davis, but his advisers have insisted that he limit his speeches out of New York state to a few in New England and save his best efforts for the fight here.

The Democrats will fire an oratorical "75" Thursday night in Madison Square Garden when Smith and Davis speak from the same platform. Senator Royal S. Copeland and half a dozen locally prominent Democrats also will talk.

Colonel Roosevelt expects to elate off an average of ten speeches a day for 18 days. He will be helped materially by Senator Wadsworth, who fought at Rochester to have Roosevelt nominated.

The Republican offensive will begin tomorrow night in Oyster Bay, the Roosevelt home, when the nominee is notified Thursday night will see the Colonel speaking in New York city and Friday also.

Then he will get out into the state, making some talks in hills, but speaking for the most part from the platform of a train that will sweep back and forth across New York with him and his shock-hoop speakers.

The first cut of town address will be Saturday in Suffern. Monday Colonel Roosevelt will go up the Hudson, speaking at towns by the way, winding up in Poughkeepsie.

GORKY SUFFERS RELAPSE. HIS RECOVERY UNLIKELY.

By Telegraph to The Freeman.
London, Sept. 30.—Maxim Gorky, the Russian novelist, who is suffering from tuberculosis and kidney disease, was reported to have suffered a relapse from which recovery is unlikely, according to advices today from Copenhagen. Gorky was planning to visit the United States again this winter.

Kingston Savings Bank To Double Its Capacity

Awards Contract For Addition to Banking House Which Increasing Business Makes Necessary—To Occupy Temporary Quarters Adjoining County Clerk's Office on Main Street—Complete Improvements May 1, 1925.

The Kingston Savings Bank on Wall street will be enlarged so as to provide double the amount of the space afforded by the present bank building, and within the next three weeks contractors will commence the work of building the addition which will probably be completed by May 1, 1925, the banking quarters in the meantime to be removed to the show rooms of the Forsyth & Davis Motor Car Company, No. 32 Main street, adjoining the Ulster county clerk's office.

General Contract Awarded.
The general contract for the work was awarded Monday night by the trustees of the bank at their regular monthly meeting to Hoggson Brothers of No. 435 Fifth avenue, New York city, who are considered the largest bank builders in the United States.

There will be fourteen sub-contracts which will be awarded by the general contractors, and bids will be solicited by Hoggson Brothers from local contractors for supply material, labor, etc., and performing the work. So far as possible, the work will be done by local contractors. For some of the sub-contracts, however, it will be necessary to secure bids from other concerns, or it will be done by the general contractors, whose experience in this kind of construction fits them especially to carry on work of great magnitude.

To Double Banking Space.
The addition will double the amount of space of the bank. On each side of the building there will be an addition ten feet wide extending the full length of the present building and also extending toward the street sufficiently to join with the addition to the front of the building, which will take in the present width and for ten feet on each side. The present portion will be enclosed and form part of the banking room when the addition is completed.

Will Re-arrange Interior.
The addition will necessitate rearrangement of the interior of the bank, and the plans will provide for additional working space for the banking force and also for depositors. The lobby will have twice the amount of space which the present lobby contains. There will also be a waiting room for the ladies and other conveniences which are now deemed necessary by all up-to-date banks but which were not in vogue when the present bank building was erected.

New Furniture and Fixtures.
The interior of the bank will be fitted with new fixtures which will furnish greater conveniences for work as well as greater convenience for bank depositors. New counters will be installed and other furnishings added, all of which will be in keeping with the general style of the bank.

Same Style of Architecture.
The style of architecture of the bank will not be changed by the addition to the building. The present bank was designed along the lines which have attracted wide attention and received commendation from architects, builders, bankers and the public. The bank will be surrounded by the same dome as at present, and the general design, which combines simplicity with strength and dignity, will be maintained.

Install New Vaults.
New banking vaults will be installed which will furnish four times the amount of vault space now available. A new safe will be included in the furnishings which is greatly needed, and will afford ample protection to the securities which are owned by the bank. The safe and vaults will be of the most approved construction and the entire building will remain, as at present, and absolutely fire proof structure.

Banking Department Approves.
The New York Banking Department has given its approval to the addition and other changes, and the plans meet with the entire approval of the state banking authorities, to whom they were submitted sometime ago.

Work to Begin Soon.
During the work of construction, Myron S. Teller of this city will be engaged as local supervising architect.

Work to Begin Soon.
The work of construction will begin within a short time. Present plans of the bank's trustees provide for conducting the business of the bank in the large and commodious show rooms of the Forsyth & Davis Motor Car Company at No. 32 Main street while the work of enlargement and remodeling is in progress. These show rooms adjoin the Ulster county clerk's office and the Eagle Hotel, and are conveniently located for the transaction of all banking business.

Growth Requires Expansion.
The rapid increase in the bank's business requires its expansion and enlargement, and the addition becomes necessary in order properly to care for the business and increasing number of depositors.

When the present bank building was completed, in 1900, the total deposits of the Kingston Savings Bank were \$1,190,235.10. On July 1 of this year the bank's deposits had increased to \$6,097,503.28, and the bank surplus amounted to \$661,998.55.

Officers and Trustees.
The officers and trustees of the Kingston Savings Bank are: Officers—George Burgevin, president; V. B. Van Wagonen, D. N. Mathews, vice-presidents; Charles Tappen, treasurer; Charles H. DeLaVigne, assistant treasurer; Harry S. Euslan, accountant; James A. Betts, counsel.

Trustees—James A. Betts, George Burgevin, Sam Bernstein, Everett Fowler, John E. Kraft, Delancy N. Mathews, Ervin E. Norwood, Abram D. Rose, Charles Tappen, Myron Teller, V. B. Van Wagonen, Levan S. Winne, Holt N. Winfield.

Famous Mining Town Wiped Out

By Telegraph to The Freeman.
Goldfield, Nev., Sept. 30.—Goldfield today was a mass of smouldering ruins. Only two buildings of any size are standing following the second disastrous fire in 25 months which wiped out what was once one of the biggest mining camps of the state. The loss is placed at more than \$250,000.

The Romance That Unfolds As the Wedding Progresses

Ruining all through "A Womenless Wedding" is the love interest of the old maid and old bachelor who are guests at the wedding. The wedding causes the old maid and old bachelor to resolve to forsake their ways and get married too. The picture above shows one of the many tenderly sentimental scenes between these characters. Anyone can see that the old bachelor is E. R. Acker, but who would guess that the coy but persistent old maid is Harry P. Dodge?

ULSTER SECRETARY SOUJNS WAR THREAT

By Telegraph to The Freeman.
 Belfast, Sept. 30.—A threat of war was sounded today by John Parly, secretary of the Ulster government, in a speech at Bessbrook.

"We are determined to resist by bloodshed any attempt to slice Ulster's territory," said Parly. "Barricades already have been organized at Limerick to come to our assistance."

Don't Pay

For beauty you fail to get

By Edna Wallace Hopper

I am not a cosmetic maker, not a beauty expert. My work is on the stage and screen. But I have had advantages which most girls and women lack. I have a rich, audacious, mother who took me in a world search for the utmost in beauty helps. Then when I became a famous beauty, every great scientist who made a discovery sent it to me.

Edna Wallace Hopper Photo 1923

Now I wish all girls and women to share that good fortune with me. I found helps which multiplied my beauty, and which have kept my youthful beauty to my grand old age. And great experts tell me that every woman can in like ways secure like results.

So I am placing these helps, which I spent a lifetime in finding, at every woman's call. All druggists and toilet counters now supply them. But with each comes a guarantee. I instruct every dealer to guarantee the money to anyone disappointed, and charge the amount to me.

My marvelous complexion is largely due to a super-cream. It combines the products of both lemon and strawberry. Also all the best that modern science knows to foster, feed and protect the skin. I use it as a night cream, also daytimes as a powder base. Never is my skin without it. And my baby skin, at my age, shows how much it means to me.

Edna Wallace Hopper's Youth Cream is now supplied by all druggists and toilet counters at 60c per jar and 50c per tube. But I shall be glad to send you a sample if you wish. Just mail the coupon for it and my Beauty Book will come with it.

Synopsis of Rotary Play

Why and How a Lot of Dignified Business and Professional Men Are Going to Appear in Wonderful Costumes on the Stage.

People are wondering what "A Womanless Wedding," to be given in the High School Auditorium on October 7 and 8 by the Rotary Club, is all about. First, is to raise some money to be expended in aiding crippled children and forwarding work for making better citizens out of boys. For that purpose nearly all of the members of the Rotary Club will appear on the stage in costumes that are "a scream" and take part in the play. Also some of the finest musical talent in the city will appear in really fine numbers.

The "Womanless Wedding" opens with Little Brother asleep and dreaming. The Egyptian Chorus represents his dream. Harold Brigham will sing "The Song of India," and the chorus will dance. When Little Brother awakens the plantation negroes come in with a double quartet that will sing a number of new and unpublished plantation songs.

Then Mother and Father come in and formally receive the guests. The Giggling Girls, W. Anderson and Harry Connelly, serve the punch. The guests are distinguished movie actresses, the parts taken by Rotarians in costume. There will be songs and dances and a Wooden Soldier Chorus, Humpty Dumpty Chorus, Why Men Leave wedding and the show ends with the chorus, "Oh Gee," "Oh Gosh," "Oh Golly, I'm in Love."

Running through the whole play is the courtship of the Old Bachelor and Old Maid, who make love with increasing fervor.

PRESBYTERIAN FURNACES ARE BEING OVERHAULED

The big furnaces that heat the Sunday school room of the Roundout Presbyterian Church are being overhauled for the winter and it has been decided on that account to hold the prayer service Thursday evening at the Manse on Wurts street at the usual hour. The Rev. Dr. Charles G. Ellis will have charge of the services.

OUR DAILY PATTERN.

4879—Checked gingham and line are here combined. This is also a good model for plaid, suiting and wool crepe, or for printed and plain crepe or voile. The sleeve may be short as in the large view, or finished with the "bell" shaped long portion.

The pattern is cut in 4 sizes: 8, 10, 12 and 14 years. A 12 year size requires 1 1/4 yard of plain material and 2 yards of checked material if made as illustrated in the large view. With long sleeves 2 3/4 yards of checked material are required. If made of one material with long sleeves 3 3/4 yards of material will be required 32 inches wide.

A pattern of this illustration mailed to any address on receipt of 12c in coin or stamps, by the Pattern Department, The Freeman, Kingston, N. Y. Be sure to state the size wanted.

Broadcast Bill's Radiolays

By WILLIAM E. DOUGLASS

As I sat in the barber shop waiting for the artist to work on my face I tried to doze off. A sudden wuz about why the change had come over the place. No old magazines littered the table, just a copy of Vanity Fair; gone wuz that pink Gazette an' I sighed with regret that the ladies were bobbing their hair. But it seems the old order changeth an' the shingle is with us to stay with the plain bob or fancy for Betty an' Nancy, maidens fair fill the chairs every day. We can wait with the patience of Ezra or Job—either one as you please till our own curly tresses begin to distress us an' our whiskers float out in the breeze. As I pondered in deep meditation a sudden good scheme scored a hit with an orchestra playin' who'd object to delayin' that shave or that haircut a bit? Why not pass all the time spent in waitin' as they do in those famous cafes where with dance an' with song time slips quickly along no one thinks of the little delays. Wouldn't radio answer the purpose? Why of course, tune in KDKA. Take your choice of the girls with bobbed hair or with curls. "May I have the next dance?" "Whut-da-yu-say?"—Copyright, 1924, Westinghouse Electric and Manufacturing Company.

LESSON NO. 8 LIGHTING THE LIVING ROOM

The living room is usually not as long as it is wide, two ceiling fixtures should be used.

There are several kinds of fixtures which will provide good lighting in the living room. Some of these are shown in the next picture.

The bulbs in these fixtures vary in number, but the total watts necessary for good lighting is from 100 to 250 watts.

The shades may be of glass, silk or parchment. They should completely hide the bulb and should be dense enough so that the whole surface of the shade is evenly lighted. A bright spot in the center of the shade means that the shade is not dense enough, and that some glare is present.

The use of all frosted bulbs will often do away with shadows of chains which would otherwise be cast on the ceiling.

PORTABLE LAMPS

Portable lamps include floor lamps, table lamps and small pedestal lamps, candlesticks, torchers, etc., for mantel and bookcase. The best portable lamps have shades which are deep enough to hide the bulbs and dense enough to prevent glare. Some are built to send more light up toward the ceiling as well as down toward the table or floor. These use large bulbs and are designed to provide general lighting by reflection from the ceiling as well as local lighting. Portable lamps from which more is required than merely decoration will need bulbs which have a total of 50 to 100-watts or more; in the interests of economy, those which are merely a decoration do not need more than a 25-watt bulb. Duplex outlets in the baseboard permit the greatest convenience and use of portable lamps for lighting.

WALL BRACKETS

Sometimes people try to provide general lighting for the entire room with wall brackets. Except under unusual circumstances, this leads to one result—the use of larger bulbs whose brightness is annoying.

Here are the things to think about when we want to be sure we have good lighting in the living room. 1. Do we have plenty of light where we need it? 2. Are all the bulbs well shaded so that we do not have glare? 3. Does the lighting equipment look well in the room and does it fit both lighted and unlighted with the furniture and woodwork?

THE CEILING FIXTURE.

Unless the living room is very large only one fixture is needed on the ceiling. However, if the room is long and narrow—perhaps twice as long as it is wide—two fixtures are needed.

Get Your License Or Go to Jail

Arrest Liable if Motor Vehicle Is Driven Wednesday by Anyone Who Has Not Secured License.

Those who fail to secure a license to operate a motor vehicle under the new motor vehicle law or have their application in the county clerk's office or in the mail before midnight tonight will be liable to arrest and a penalty should they be caught driving an auto or motorcycle on and after Wednesday, October 1.

Up to noon today about 10,750 applications had been received at the local motor vehicle department in the county clerk's office. County Clerk Saxe expressed the opinion that a large number of applications will be received by mail before the county clerk's office closes this evening. He will be at the office with the force of clerks until midnight if it is necessary to act on the applications and has everything prepared to send to Albany to the State Motor Vehicle department.

Owing to the storm there was not a rush of applicants this morning.

Dear Mother

"I know George and Alice both need Cod Liver Oil, and need it badly as all thin, puny, run down kids do. But it gives me the most horrible shivers just to think of them taking the horrible stuff."

"Instead of the nasty tasting, vile smelling oil itself why don't you be up to date and give them McCoy's Cod Liver Oil Tablets? It's the new way to take Cod Liver Oil—they are as easy to take as candy—won't upset their stomachs and surely do help sick ailing people to get well again."

"Have pity on the poor kids, mother, and take my advice—you can get the original and genuine McCoy's Cod Liver Oil Tablets at any real drug store—and 80 tablets cost only 60 cents. Be sure and get McCoy's mother—everyone says they do help the sick kiddies to grow strong and robust."

ROOSEVELT ENVIED EXPLORER STEFANSSON

Vilhjalmur Stefansson, who is to lecture at the high school auditorium in the evening of November 10th, under the patronage of The Federation of Women's Clubs, has the unique distinction of having been envied by the late President Theodore Roosevelt. When Stefansson returned after his five long years in the Arctic region, bringing back with him scientific data that was invaluable, Roosevelt sent him the following characteristic note: "There are few men in this world whom I envy, and you are one of them." During those five years Stefansson explored about one quarter of a million miles of the hitherto unknown polar regions. He found new islands, one of which was as large as Great Britain. He corrected the outlines of others and established the actual non-existence of an island supposed to have been discovered years before. All of this will be shown in picture and told about at the lecture on November 10th.

INDUSTRIAL ACCIDENTS TO WORKING MINORS

A total of 7,478 industrial accidents to young workers under 21 years of age occurred in one year in three states, according to a study just completed by the Children's Bureau of the U. S. Department of Labor.

Thirty eight of these accidents resulted in death and 920 in partial disablement for life.

Wisconsin, Massachusetts and New Jersey were the states included in the study. The cases of industrial accidents to minors were secured from the files of State Industrial Commissions and Accident Boards and were only those in which compensation had been paid, that is, in Wisconsin accidents causing disability of more than seven days duration, in Massachusetts and New Jersey accidents causing disability of more than 10 days duration.

The smallest number of accidents and the lowest accident rate occurred in the case of children under 16. Each of the states studied had attempted to protect children under this age by prohibiting them from employment in certain occupations chiefly in the operation of the more dangerous machinery, which is the source of greatest accident hazard to the young worker.

Children of 16 and 17 were prohibited from some employments in Massachusetts and Wisconsin but in all three states were permitted to operate many of the dangerous machines.

Accident figures reflected this difference in legal protection. Power-working machinery caused a larger percentage of the accidents to the 16 and 17 year olds than to children under 16, protected by law or to young workers between 18 and 21, better able to protect themselves.

Accidents were also more serious to the 16 and 17 year group than to either the younger or older workers. Of the injuries to workers under 16 10.7 per cent resulted in death or partial disablement for life. For those 16 and 17 years old who were injured, the rate was 13.4 per cent killed or permanently disabled; for the group 18-21 years the rate was 12.7 per cent.

"Mongolian" Baby Had Good Care

Deformed Infant Was Removed to Another Hospital to Spare Mother Shock—Nurse Said Doctor Gave Instructions to Starve It.

By Telegraph to The Freeman.
New York, Sept. 30.—District Attorney McGehegan, of the Bronx, today began the last two phases of his investigation into reports that an imbecile infant born to a woman in the Hunt's Point Hospital was being permitted by the attending physician to die because "it was all for the best."

McGehegan said he had satisfied himself that the baby now was being given proper care. What he wishes to ascertain still is whether or not that was true at all times since its birth. If he finds that the child was not at any time being permitted to die, he will attempt to discover the motive of the nurse who circulated the story that the attending physician had left instructions which she disregarded, to starve the baby to death.

The nurse will be questioned by McGehegan.

The baby of that type of deformed infant called "Mongolian" because of its features, was born to a Bronx couple whose names the authorities withheld. To spare the mother the shock the doctor explained to McGehegan he had removed the infant to another hospital.

Lighted Lantern Ignited the Gas

John Tatarzewski of No. 21 Jarrod street shortly after 6 o'clock Monday evening, found that his gas supply was being shut off, and taking a lighted lantern he went in the cellar to drain the water out of the pipes.

He extracted the plug and the flow of gas was ignited by the flame from the lantern, causing an alarm of fire to be turned in from Box 14 at 6.20 o'clock to which the fire department responded. Fortunately Mr. Tatarzewski was not burned, but the flames damaged the two gas meters in the cellar and set fire to the floor timbers. On account of the prompt arrival of the firemen, the damage was not heavy.

This morning an alarm was sent to the Central Fire Station that electric wires were down on Garden street. A man was stationed there to warn pedestrians until the Kingston Gas & Electric Company sent men to the scene to repair the broken wires.

Another still alarm later in the morning was from the office of Watts & Tammany on the Strand for a fire in the meter and control box. The electric company made the necessary repairs.

SAUGERTIES.

Saugerties, Sept. 30.—Miss Mildred Hill of Vassar College at Poughkeepsie, has returned to the nurse's training department at that place, after spending the week end with relatives here.

John G. M. Hilton of Cedar Hill, Albany has returned home after spending the past week at "Stromzeit" at Malden-on-Hudson.

There was born, September 28th, to Mr. and Mrs. Clinton Oliver Johnson of R. D. 1 Saugerties, a baby daughter, Leona Hatlie.

George Burhans the blacksmith of West Bridge street Saugerties has purchased the large chicken house of Mrs. William Ziegler and is erecting the same on his property at that place, and will accommodate 500 chickens.

Wednesday, October 1st the Cedar Grove Hotel will open at Malden-on-Hudson with winter dances every week thereafter. Round and square dancing from 8 to 12.

Overland Starts on Endurance Run

One Hundred Hour Run Over Ulster County Roads to Determine Endurance and Economy of Overland "Spad"—Will Travel Continuously Until Saturday.

In a steady downpour of rain, the Overland "Spad" loaded with a half ton of feed, started at 3.30 o'clock this morning from the salesrooms of the George J. Schryver Motor Car Company's garage at 21 North Front street for its 100-hour endurance and economy run. Mr. Schryver and a number of other persons were present to witness the start of the long grind which is being run to show the durability and economy of this popular car. On either side of the truck were signs announcing that the car was taking part in an economy and endurance run.

Before starting off on its long trip, the gas tank was filled, the oil reservoir filled, and both were sealed in the presence of witnesses. As gasoline is added from time to time during the 100 hours of steady running, it will be checked up and an accurate account kept to determine just what mileage this car with a half ton load can get under ordinary circumstances. The run is not a speed contest, but an even steady speed will be maintained throughout the run. The idea of the long run is to show the economy and reliability of the car.

The Overland "Spad" is a delivery body mounted on the usual Overland chassis and is used for light delivery purposes. Several of these cars are now running in the county in the regular business of farming and in the city for milk delivery purposes and in other businesses. During the run an accurate check will be kept on the gasoline and oil mileage and an observer will witness the operation of the car at all times. There will be relief drivers to keep the car running at all times without a stop and at the end of the 100-hour test the examination of the car will be made to learn its condition after the test.

When the car was checked out of the Overland garage, the speedometer registered 212 miles. What the mileage will be when the test is completed can only be estimated. The first objective in the run was Saugerties, from there the car will travel to Woodstock, Bearsville, Shady Ashokan, Phoenicia, Albaton, Shandaken, Pine Hill and back to Kingston. The second round of the trip will be through the southern part of the county by way of Huxley, Stone Ridge, Accord, High Falls, Rosendale, Tilton, New Paltz, Highland, West Park, Esopus, Ulster Park, Port Ewen and back to Kingston when the same route will again be taken until the 100 hours are up. Stops will be made from time to time at the George J. Schryver Motor Car Company garage on North Front street where gas and oil as needed will be taken on, but observers will see that the engine is not stopped.

The only supplies taken along on the trip are extra tires to be used in case of emergencies and an extra gallon of gas which may be used in case the gas supply runs out while on the road. This will be sufficient to bring the car back to the garage for a new supply, but the extra gas will be sealed and used only in an emergency.

Bulletins will be issued to give the standing of the test and the results as reported by the drivers and the observers.

The test will close on Saturday, October 4.

STONE RIDGE HORSE WON AT BINGHAMTON

On Saturday, September 27 at the Binghamton fair Shiqua, 2 101, trotter owned by Percy Brink of Stone Ridge won the 2 14 trot, trotting the fastest heat of the meeting of either the trotters or pacers. This was the fourteenth race for the Stone Ridge horse this season. In the first ten races in 11 heats, Shiqua was 30 times first and second and has never been out of the money this season.

Brink's stable has three trotters and one pacer which he is racing at Lehighton Pa. this week. The following week he will go to York Pa. For the balance he will go to North Carolina on the Dixie circuit.

LIVE SOLE SOBS SOON SIX STATE SPECIALISTS

By Telegraph to The Freeman.
Ithaca, N. Y. Sept. 30.—Apply time late in September or early in October, say extension specialists of the state college of agriculture here.

They say that the next two or three weeks turnsh a good time to make this much-needed addition to New York soils. They feel that enough is known about the benefits of lime, so now is the time to more concerned now about the best time to apply it.

Most farmers they say, realize that liming sour soils is practically the only hope for clover or alfalfa, and that liming is one of the best ways to improve old pastures. Many farmers have put their farms on a paying basis through the use of lime and legumes.

While admitting that lime will benefit sour soils at almost any time, these specialists say that fall is one of the most desirable times to put it on, both from a standpoint of expediency of labor and efficiency of the lime. Burned and hydrated lime, of course, should seldom if ever be put on a growing crop because of their caustic effect on green vegetation, and they should be applied for best results on plowed land where the soil can be stirred within a very few days after the lime is put on, whereas ground limestone may be applied at any time.

Any form of lime must be thoroughly mixed with the soil to give a return on the investment, and that is why they advocate its use on land

fall plowed for oats, barley or for any other reason. There is often a considerable period in the fall when this work may be done but it is advised to do it now, like many other things that are better done at once than put off to ultimate forgetfulness.

A late wet spring which means soft, unworkable land makes it very difficult to get the lime on, and doing it after the land dries out would delay the seeding so much that it generally is not done with the result that the poor clover crop is apt to be left in the lurch. Get the lime on now, say the soils men, and it will be on.

THE TYPHOID CARRIER.

Trail of the Human Carrier Left Sickness Everywhere.

Health News, published by the New York State Department of Health, says that about six years ago, a girl of thirteen, who has recently been found to be a typhoid carrier, and a sister five years younger both contracted typhoid fever while living in Livingston county. An aunt who came to take care of the two girls at the time of their illness also contracted the disease. Two years later the father of the girls, a younger brother and a boarder came down with typhoid fever within a short time of each other. The evidence indicates that the girl was the source of infection of the last three cases.

carrier left home. Persistent inquiries failed to locate her where she was. Her parents maintaining that they were uninformed as to where she had gone. Through the efforts of the health officer of the village she was finally located on a farm in a neighboring county where another case of typhoid, the farmer's son, was found.

Seven non-immune members of her family have been immunized. The faces of those who have had the disease are being retested for typhoid bacilli. The girl herself has been given strict instructions regarding her personal hygiene and informed regarding the regulations governing her case.

MINOR AUTO ACCIDENTS REPORTED TO POLICE

POINTING THE WAY.

No better evidence of Colonel Roosevelt's place in the hearts of the people is needed than the deluge of letters and telegrams he received for two or three days after he was nominated and the number he is getting every day now. They are from all classes and conditions of men and there is no doubt whatever as to the sincerity of the contents, the wording being assurance that the senders will work for the election of the Republican candidate. Every one was actually a voluntary promise of support.

While the candidate was overseas he made many soldier friends, and it is apparent that he has added to the number since he returned. This was disclosed by congratulations from service men who rallied to the support of the Colonel immediately after he was nominated and who in almost every instance told him they were at his command ready to do as much for him in this campaign as they were in campaigns of other days. Many said that while they could not do much because of injuries suffered in France they would be only too glad to do anything possible.

It was but natural that with the Colonel's interest in soldier organizations he would receive pledge of support from "buddies," but the avalanche of telegrams that came from men of prominence in the commercial and industrial world was remarkable. It was not, however, any more convincing of the Colonel's standing than letters from those who make up what are known as working people. Let us after letter declared he would be elected and that they would help because they believed in him.

One of the newspapers commented on the amount of mail the Colonel had handed to him in Rochester, but it was nothing compared with what he found on his desk when he got to Washington and what was waiting for him in Oyster Bay. While the messages were in the hundreds and alone would not be proof of what the outcome will be, there is no denying that they point the way the wind is blowing and are convincing that the next Governor of New York state will be Republican.

SHABBY DRESSED MEN.

For twenty years after the ruinous War for Secession struggling heads of families in the Southern States were lamentably shabby in dress, spending on their wives and daughters such money as they could afford for clothes. A similar, though probably less desperate, situation is now reported from war-impoorished England. In their own interests the London tailors are making loud outcry against the increasing shabbiness of the British man. "Everywhere," the tailors unflinchingly complain, "one sees badly dressed husbands accompanied by extravagantly dressed wives and shabby business men dictate letters to stenographers wearing the latest thing from Paris." Presumably one reason for all this is that the average man is more indifferent, while the average woman must and will have clothes. Another reason, possibly, is that the shabbily dressed business man enjoys somewhat of reflected glory and looks upon his wife's fine feathers as a paying as well as a prideful investment. But, insist the London tailors, clothes with a man also are a business asset.

This is true, and it is also true that good clothes add something in the way of confidence, self-respect and poise. Nevertheless, if the Englishman of today, like the Southerner of the generation gone, is unable to do both and is compelled to choose, inevitably he will devote his spare money to the apparel of his wife and daughters while contenting himself with old suits and inexpensive hand-me-downs. In many cases the daughters especially will receive the preference owing to the recognition that to be attractively garbed is an essential to success as they look about for suitable future husbands. The London tailors are likely to sigh in vain until the old-time prosperity returns.

A famous Hindoo juggler trick, supposedly accomplished by hypnotizing the audience, did not succeed

at the Wembley Exhibition. The juggler throws a rope into the air, climbs into it, disappears, then drops dismembered into the basket, from which presently he steps forth whole and smiling. But none of this came off at Wembley because—it is suggested—the critical newspaper men present could not be hypnotized.

That Body of Yours

THE SET OF YOUR WILL.

I came across this little verse the other day:

"One ship sails east, and another sails west
 With the very same winds that blow.
 'Tis the set of the sails, and not the gales,
 That tells them the way to go."

I wanted to just add this as the second part:

"Like the winds of the sea, are the ways of health.
 As we voyage along through life;
 'Tis the set of your will that brings good or ill,
 And not the calm or the strife."

You will remember in discussing the wonderful vitality of Chauncey Depew, that he made use of that same idea when he said, "I had the will to do what was wise in regard to my habits of life."

He had the will not only to lay out certain definite plans of health, but the will to carry them out.

He knew what food agreed with him and let the other kinds go. He certainly had abundant opportunities for finding them out, when we remember his formal dinners, five nights a week for years.

He had the will also to leave the banquet hall in time to be home by 11 o'clock at night, thus ensuring his night's rest.

Now just as this rule applies in good health, so does it apply when you are below par physically.

As was mentioned once before, you can be an optimist to such an extreme that you will ignore definite signs that something is wrong with you.

Where does that get you? It makes it harder for you to get back to health after the cause is discovered.

The set of your will simply made you more ill, instead of better, because common sense was lacking.

Or you may be a pessimist and let the winds or ways of every slight indisposition cause you to feel that you are seriously ill, and you worry in proportion thereto.

The captain, sailing his vessel, knows his vessel, and what it can do in light or heavy winds, or even in a hurricane.

You should know your body pretty well and how much use or abuse it can stand.

It really isn't a case of knowledge or ignorance often when things go wrong with your body.

Isn't that true?
 It is your will, the set of your will that brings good or ill.

That is likewise true, isn't it?

CREEK LOCKS.

Creek Locks, Sept. 29.—Tuesday afternoon twelve members of the Junior Order United American Mechanics, on behalf of Harry Melos, and his daughter who attends the Creek Locks school, presented the school with a beautiful American flag and flag staff. The program was opened by one of the members who delivered a speech on loyalty to the flag. The children showed their appreciation by reciting patriotic poems. They also sang patriotic songs led by their teacher, Miss Katharine O'Connor. Those who gave the flag and attended the exercises were: Joseph Bush, Charles Drew, John Flemming, Harry Hairman, Joseph Lellman, Harry Melos, Joseph Mayrick, James Rhoden, George Rhodes and Dr. Ziederman. Several other guests were present who enjoyed the program.

Fire Prevention Week Celebration

Fire Chief Chipp Gives Valuable Hints to Householders and Others in Connection With Nation-wide Observance Next Week.

Measures are being taken by the Kingston Fire Department and the Chamber of Commerce to localize the celebration of Fire Prevention Week next week in Kingston. Deputy Chief Murphy and others will give talks in the schools and an effort will be made to induce all citizens to visit and inspect fire headquarters, where the new fire alarm station is now in operation. All social and civic organizations will be asked to cooperate.

Speaking of Fire Prevention Week, which will commence on Sunday, October 5, and close on Saturday, October 11, Fire Chief Chipp today made the following statement to the people of Kingston as a kind of foreword to the coming activities:

"In reminding my fellow citizens of the significance of Fire Prevention Week," says the chief, "and in urging them to enter fully into the spirit of the occasion, I do so with a somewhat different feeling from that of previous years. I am more hopeful. Reports which have reached me from the National Board of Fire Underwriters, the United States Chamber of Commerce and other organizations working on a national scale indicate that there is at least a slackening in the rate of advance in our fire loss. In 1921 this loss stood at \$485,000,000; in 1922 at \$506,000,000, while last year it rose only to \$508,000,000.

"This sum of destruction is, of course, still far too large, yet the smaller increase noted is a sign that fire prevention work does pay, and it is just because we have at last proof that all our efforts in the past have been to some purpose that we should not stop now. It is time to drive ahead with more steam than ever, feeling certain that we are 'on our way' to a new kind of America, an America where fire-safety is not only valued but worth working for every day in the year. Let's show the rest of the country that Kingston 'means business' in its 1924 observance of Fire Prevention Week."

"Although the keeping of the week of October 3 to 11 is a national affair in which whole communities should take part, it is, at bottom, an individual concern. We've often heard the old saying, 'What's everybody's business is nobody's business,' so let's make Fire Prevention Week not only a public occasion but also a private matter and keep its lessons by us. To this end I have drawn up, for the guidance of all of us throughout the year to come, these brief rules of fire-safety:

"Watch disposal of matches and lighted smoking materials; they are responsible for a heavier annual loss than any other known cause. Always keep matches out of reach of small children.

"Use proper fuses in electrical circuits; the fuse is the safety valve of the system and should not be tampered with.

"Turn off electric flat-irons and other heating devices while attending to something else.

"Gasoline and other volatile liquids make dangerous cleaning fluids, many safe compounds are on the market, including carbon tetrachloride which is obtainable at any drug store.

"Defective chimneys and flues caused more than \$18,000,000 destruction last year; keep them clean and in repair.

"A gas leak should be hunted with a flash light instead of with an open flame light; to the 'suspected' part of the pipe apply soap suds which, in bubbling, will reveal the leak.

"Clean all smoke pipes before the winter comes on; if pipes are clogged they overheat easily and may start fire when the furnace is operated.

"Walls, ceilings and partitions should be shielded from the overheating of stoves, furnaces and pipes.

"Hot ashes belong in metal containers, not in wooden boxes and barrels.

"Oil lamps or stoves are safely filled only by daylight.

"Open fires always should be screened.

"I have just completed an inspection of business premises," concluded the chief, "and have called for a general clean-up. I note that hundreds of property owners have cooperated in this respect. That's the right spirit. Now let's keep our city

clean, remembering that fire doesn't usually pick out clean property to visit."

Two Grade Pupils Win Cash Prizes

Dairymen's League Offered Prizes for Best Letters Written About "Healthy, the Milk Clown," and Use of Milk—Prize Winners.

When H. M. Eppes of Accord, who takes the part of "Healthy, the Milk Clown," in the educational demonstrations which are being conducted by the Dairymen's League in conjunction with state officials and various organizations, appeared in the public and parochial schools recently, two prizes were offered for the best letters written to pupils about "Healthy" and his campaign for better milk.

Out of a total of 144 letters written by the pupils, the judges selected that of Doris E. Nickerson, 11 years old, of Abruy street for the first prize, of \$10. The second prize, \$5, was awarded to Lillian Longto, 12 years old, of 14 North street. Honorable mention was awarded to Dorothy Wingert of 77 Abruy street. The prize-winners have received their checks from the Dairymen's League.

The prize winning letters are as follows:

First Prize, \$10.

Dear Corrine:

One afternoon we were surprised when our cloak room door suddenly opened and in walked "Healthy" the milk clown. He was dressed in the funniest fashion. He came to tell us to drink more milk and become healthy like himself. Every growing child should drink one quart of milk a day.

In every glass of milk there are food folks who make us grow. Fannie Fat and Sally Sugar help to keep us warm. Lillie Lime gives strong bones. Pat Protein makes muscle; Viola Vitamine makes us grow. If you want to be healthy, "Drink more milk."

Your sincere friend,

DORIS E. NICKERSON.

Second Prize, \$5.

14 North Street
Kingston, N. Y.
September 19, 1924.

Dear Evelyn:

I have written to tell you about "Healthy," the milk clown, who came to visit us at school. He said that in milk there are five food elements which help us to have a strong body.

Milk contains the substances which give us firm muscles, strong hard bones. It gives warmth to the body and makes us bright and lively.

A child should drink at least one quart of clean pure milk a day if he wants to be strong and healthy and to live long. Evelyn, you are thin, and, if I were you, I would drink more milk.

Yours truly,

LILLIAN LONGTO.

Honorable Mention.

77 Abruy Street
Kingston, N. Y.
September 19, 1924.

Dear Ruth:

"Healthy," the milk clown, was at our school the other day. Oh! he was so funny! In his comical way he told us why milk was good for growing boys and girls. "Healthy" said there were five body builders in a bottle of milk. They are: Sally Sugar and Fannie Fat who keep us warm, Viola Vitamine who gives us spirit and go, Lily Lime who makes hard bone and Pat Protein who gives us strong muscle.

I went home and told mother. She said that although "Healthy" spoke amusingly everything he said was the truth.

Yours for better health,

DOROTHY HELEN WINGERT.

GUIDE'S LICENSE REVOKED.

Will Be Debarred From Guiding for Two Years.

By Telegram to The Freeman.

Albany, Sept. 29.—For hunting and possessing wild ducks during the close season, Gerald E. Narrow of Tupper Lake, N. Y., a licensed guide, had his license revoked by the Conservation Commission and is debarred from obtaining another license for a period of two years. Narrow who was licensed guide No. 514, was apprehended by Earl A. Vosburgh, game protector in Inspector Burmaster's division, for having in his possession wild ducks and was fined \$27.50, and the case was reported to Llewellyn Legge, chief game protector who recommended that the guide's license be forfeited and that no other license to guide be issued to him for a period of two years.

Section 186 of the Conservation Law which provides for the licensing of guides, gives to all persons licensed as guides the same power as special game protectors, except the right to search without a warrant. The law also provides that any such licensed guide who violates any provisions of the fish and game law, or violates any lawful rule or regulation established by the Conservation Commission, or who makes any false statement in the application for a license, shall, in addition to the liabilities for the penalties for such violation, immediately forfeit and surrender his license and no license to act as a guide shall be issued to such person for a period of two years following such forfeiture.

This is the first instance where a licensed guide has had his license revoked since the enactment of the law.

NOTICE TO CREDITORS.—In pursuance of an order of Hon. George F. Kaufman, Surrogate of Ulster County, notice is hereby given, according to law, to all persons having claims against Martin Studd, late of the City of Kingston, County of Ulster, deceased, testate, to present the same with the vouchers in support thereof, to the undersigned, Fredericka Studd, the Administratrix of the estate of said deceased, at 15 First Avenue in the said City of Kingston, N. MINUTE TALKS In Question and Answer Form on New York State's New MOTOR VEHICLE LAW By Charles A. Harnett Motor Vehicle Commissioner.

LICENSES TO OPERATE.

Q.—Under what conditions may a person operate or drive a motor vehicle on a public highway in New York state?

A.—No person may drive a motor vehicle on a public highway in New York state unless he or she is a duly licensed chauffeur or operator.

Q.—Under what conditions may a non-resident of New York state operate a motor vehicle without obtaining a New York state operator's license?

A.—A non-resident of the state, who is over the age of 18 years, may operate a motor vehicle for not exceeding thirty days in any one year without being licensed under the New York state law, provided the motor vehicle itself is duly registered under the laws of the state of which the person is a resident, and belongs to the operator or to a member of his family. If the person resides in the state which requires operators' licenses, he must be a duly licensed operator of that state.

Q.—To whom must application for license to operate a motor vehicle as an operator be made and how?

A.—To any issuing office by mail or in person.

Q.—What are the issuing offices for issuing operators' and chauffeurs' licenses?

A.—In the five counties within the city of New York (New York, Brooklyn, Kings, Queens and Richmond) the central office of the commissioner of motor vehicles at 220 West 40th street, New York.

In the county of Albany, the central office of the commissioner of motor vehicles in Washington avenue, Albany.

In the county of Erie, the district office of the tax department at Buffalo.

In the county of Monroe, the district office of the tax department at Rochester.

In the county of Oneida, the district office of the tax department at Utica.

In the county of Onondaga, the district office of the tax department at Syracuse.

In all other counties, the county clerk of the county.

And at Automobile Clubs in such cities in the state, the offices of which have been deputized by the commissioner of motor vehicles to issue operators' licenses.

Every motor vehicle operator must be licensed by October first.

GUARDIAN OF THE GAME.

Cooperation Between Protectors and Sportsmen Shows Good Results.

By Telegram to The Freeman.

Albany, Sept. 30.—At a recent meeting of the International Fish and Game Commissioners held at Quebec, Chief Game Protector Llewellyn Legge of the Conservation Commission, read a paper on the importance of the cooperation of all fish and game commissions with sportsmen's clubs, and at the conclusion of his paper answered questions for more than an hour on details of the game protective work of the New York State Conservation Commission, particularly the manner in which responsibility for the strict enforcement of the law is definitely fixed by the division of the state into game protective districts each one of which is in charge of an inspector. Each inspector is held directly responsible to the chief game protector in Albany for the work in his district and for the activities of the protectors under him, the chief game protector in turn being held accountable by the commissioner for all the work in all the inspection districts.

The success obtained by the commission in securing the cooperation of sportsmen's organizations in the observance and enforcement of the Conservation law was explained by Chief Legge who told how inspectors and protectors keep in touch with the officers of all the clubs in their districts and work with them to better the protection of wild life and the prosecution of offenders.

TODAY WE CELEBRATE

RICE.

The first rice introduced into America was at Charlestown S. C., in 1694. It was planted first in vegetable gardens in that city, and it yielded so abundantly that its culture was successfully attempted on a larger scale, eventually becoming one of the leading agricultural products of the South. In Texas and Louisiana, the custom observing "Rice Day" on the last day of September was instituted a few years ago. All the numerous varieties of cultivated rice originated from a wild plant called in India, the Newaree. Rice was cultivated in India, China and Japan in ancient times, and in Syria as early as 400 B. C. It was first cultivated in Italy, the leading rice-growing country of Europe, at Pisa, where the leaning tower is, in the year 1468. China is supposed to lead the world in rice production by a great margin, but the actual production is unknown. British India is second among the rice countries. The annual rice production of the United States varies upwards from 24,000,000 bushels. Sake, the Jap drink with a "kick" is prepared entirely from unfermented rice.

THE S. S. COLUMBIA.

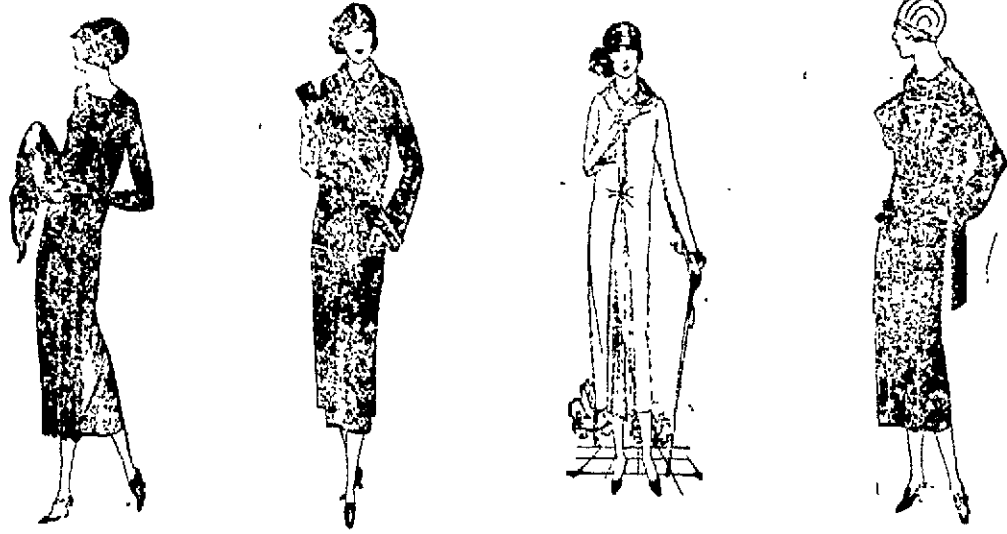

The trip of the round-the-world voyagers reminds us that the first voyage of an American vessel around the world was made by the ship "Columbia," which sailed from Boston September 30, 1792, just 137 years ago today. The route was by way of Cape Horn to the northwest coast of America, where the ship took on a cargo of furs and sailed for China. From the latter country it sailed around the Cape of Good Hope and returned to Boston in 1790. The ship was in command of Capt. Robert Gray, who was the first white man to ascend the Columbia River, although the mouth of that stream had previously been discovered by a Spanish expedition.

BENJAMIN WEST'S MOTHER.

When Benjamin West was seven years old, he was left one day in charge of an infant niece. As it lay in the cradle and he was engaged in fanning away the flies, the motion of the fan pleased the child and caused it to smile. Attracted by the charms thus created, young West felt his instinctive artistic passion for drawing aroused, and seizing pen, paper, and red and black ink from the table, he made his first attempt at portrait painting, finishing just as his mother and sister entered the room. Failing to conceal the work, his confusion attracted his mother's attention and she asked what he had been doing. Timidly he handed her the drawing, asking that she be not offended. "I declare, you have made a likeness of Sally!" she said, and kissed him. The following year a gift of a box of colors caused young West to steal into the garret and forget all about school, and when his mother went to the garret to reprimand him, her eye was caught by his compositions and her anger cooled at once. How much the world is indebted to Mrs. West for her early and constant encouragement of the immortal young artist at a time in his life when harsh, un sympathetic words would have blasted his timid ambitions. It is for this that West often remarked in after years "My mother's kiss made me an artist."

LUCY'S LOYAL FRIEND

You have heard of Lucy before, without a doubt. But if you have not heard of Lucy I will tell you about her at once. She is very lovely.

So lovely is she, in fact, that often she is not just called Lucy but she is called Lovely Lucy.

She has blue eyes and fair hair and soft white skin. Her cheeks get quite pink when she plays in the open air and during the summer when she is at the seashore.

How Gracefully She Had Danced.

She is very popular. Her mother loves her and her Grandma loves her and so does her aunt and so do the neighbors and so do all her small friends.

But like so many popular people, sometimes she has to put up with visitors she does not care to see. Once Old Man Menasie went to see her. He is so rude and not in the least bit pleasant. His manners are simply outrageous.

Then the Tonst! Twines called upon her and they had to be simply taken right out of the way.

And now the other day Mean Scraggy Scratch decided he would pay her a visit.

All of the members of the Scratch family aren't mean. They give little scratches which don't amount to much. But Mean Scraggy Scratch was different. He gave a scratch so that it really hurt and so that Lucy had to be in bed for a time until Mean Scraggy Scratch's work was taken out of the way. They would do this by having Lucy keep very quiet and in bed.

Mean Scraggy Scratch is the kind who would like a person to get a bad infection, which means more hurting and which also means that a person will feel a little sicker.

Now Lucy had been very busy before Mean Scraggy Scratch went to call on her.

She had been dancing and had gone to dancing school. She had danced in a beautiful blue bird dance when she had looked like a lovely blue bird herself with a blue costume and blue upon her fair hair.

And how gracefully she had danced. Then she had been playing a great deal and she had been roller skating. It had been when she had fallen down upon a pavement in roller skating that Mean Scraggy Scratch had had his way.

"Just give her a usual scratch which won't bother her at all," said the other members of the Scratch family, but Mean Scraggy Scratch said:

"No, I shall pay a visit upon her for awhile." And nothing they could say had any effect upon Mean Scraggy Scratch.

Yes, he hurt. He was mean. He was as mean as he could be.

Lucy had to be in bed for awhile and she drew pictures and read books and stories and looked at pretty flowers which had been brought to her.

Her family all entertained her and she was very clever, too, at entertaining herself.

She sat up in bed, wearing a pretty pink jacket, and found many things to do.

But her loyal, little, quiet friend was almost the most comforting of all.

He was a little toy brown monkey. But Lucy loved him dearly.

She never went away on a trip without carrying him with her. She never packed him with the other toys.

He was carried in her arms. He was put to bed before she was every night and Lucy always covered him over, right up to his chin so his little brown cloth, but very huggable, body would be warm through the night.

Of course he did not go to dancing school with her, nor did he go roller skating.

But just as soon as Lucy was ill and as long as she would have to stay quiet, there was her little monkey.

He would outstay Mean Scraggy Scratch. That was the way to do with such a visitor who was not wanted and who had such mean ways.

Yes, the little brown monkey would stay close to Lucy. He would watch over her and no one could outstay him!

He was very quiet, but for all that, he showed his love and his devotion and his loyalty.

Oh, the little brown monkey loved Lucy and Lucy loved her loyal little friend!

Lucy Loved Him Dearly.

WAYS WITH VEGETABLES

The fall and late summer vegetables are very delectable. Summer squash is one that if cooked and well drained, then seasoned with plenty of butter, salt and white pepper makes a tasty dish. Summer squash without seasoning is "flat, stale and unprofitable."

Sliced summer squash dipped in egg and seasoned flour, then fried, makes another good way to serve it.

Pepper Omelet.—Beat the yolks of three eggs until light, add a teaspoonful of salt, three tablespoonfuls of cold water, a speck of cayenne and a tablespoonful each of minced green and red pepper. Lastly, fold in the stiffly beaten whites and cook as any omelet. Slip folded onto a hot platter, surround with a little tomato sauce and sprinkle with a bit of the minced peppers. Serve hot with hot corn cakes.

Cream of Carrot Soup.—Cook until tender one pint of sliced carrots, drain and mash; put through a ricer. Scald a quart of milk with a slice of onion and a pinch of nutmeg; remove the onion after fifteen minutes, add the carrot and seasonings, a little sugar and seasonings, a little sugar and a dash of cayenne. Melt a tablespoonful of butter, add a tablespoonful of flour, cook until smooth, thin with a little milk and add to the soup. Serve hot with croutons.

Asparagus Salad.—Whip one-half cupful of cream; beat in one-quarter of a cupful of tomato catsup, two teaspoonfuls of lemon juice and one-quarter of a teaspoonful of salt. Pour over cooked cold asparagus tips and serve well-chilled.

LEIBHARDT.

Leibhardt, Sept. 29.—Preaching services will be held Tuesday evening, September 30, in the M. E. Church, conducted by the Rev. W. W. Churchill of Kerkhonkson.

The day school was closed Thursday and Friday of the past week on account of the teacher, Miss Lyons, attending the teachers' conference at Kingston.

Mrs. Roy Terwilliger has returned to her home in Newburgh after spending a week with her sister at the Hornbeck home.

Meade Brown of Lake Mohonk, spent Tuesday night at the home of his parents last week, returning to Mohonk Wednesday.

Miss Florence Lee and mother, Mrs. Sarah Lee of New York city, enjoyed four days of their autumn vacation at the home of Mr. and Mrs. William J. Brown.

Mrs. William Hornbeck pleasantly entertained Mrs. Charles Gray and Mrs. A. Gullickson at her home on Sunday.

A number from this place will attend the hot chicken supper at Krumville on Saturday, October 4th, on the church grounds.

Mrs. Calvin Davis, who has a position at the Dr. Poord Sanitarium at Kerkhonkson, spent Saturday night and Sunday at the home of her aunt, Mrs. Alex Brown.

Harry F. Brown has recently purchased a Durant touring car at the Windrum Garage.

Congratulations are extended to Mr. and Mrs. Myron Smith of Kingston, for a happy and prosperous married life.

Friends and neighbors are pleased to hear that Vernon Barnhart is improving from a serious illness of blood poisoning. All hope for his speedy recovery.

Gerald Quick left last week for Lake Mohonk for the fall season, after spending the summer in this place.

Mrs. Jennie Depew and daughter, Miss Thelma, of Napanoch, were week-end guests at the home of her mother, Mrs. Margaret Lawrence and her brother, Leslie Lawrence.

Mr. and Mrs. Henry D. DeWitt were in Kerkhonkson the past week.

Pet Bear Kills 3-Year Old Girl

By Telegram to The Freeman.
Chico, Cal., Sept. 30.—Before the
horrible eyes of her mother, little
three-year-old Georgia Pepper was
struck down and killed at Durham,
by a huge bear which all of the chil-
dren in the neighborhood had re-
garded as a pet.

The bear, owned by W. H. Kimbly,
neighbor of the Peppers, had been
chained for four years and children
and grown-ups alike had come to re-
gard it almost as a pet, feeding it
apples and candy.

The child was passing the bear's
cage when suddenly a huge brown
paw shot out, clutched her dress and
pulled the body toward it.

The townspeople were forced to
shoot the animal to gain possession
of the body.

the town of Esopus to give considera-
tion to the question of entering into
new contracts for future lighting. The
meeting is called pursuant to a resolu-
tion of the town board of Esopus,
dated September 20, 1924, for the
purpose of aiding the town board in
determining the wishes and desires
for future lighting of the taxpayers
of the light districts. Among the
questions to be considered will be all
night lighting and whether lights of
higher candle power are desired.

Only One State, Says DeValera

Irish Republican Leader Says Ulster
Must Come Under Jurisdiction Of
Supreme Irish Parliament At
Dublin.

(Copyright, 1924, by International
News Service.)

By Telegram to The Freeman.

Dublin, Sept. 30.—Eamonn De
Valera, leader of the Irish Republi-
cans, in an exclusive interview with
International News Service today
declared that Ulster must come
under the jurisdiction of a supreme
Irish parliament at Dublin. This is
the first interview granted by De
Valera since his release from prison
and it comes at a timely moment as
the English parliament met at
London today to take up the Free
State-Ulster boundary dispute.

De Valera claims that a republic
already exists in Ireland. All Ire-
land, he said, must be one sovereign
state.

"We will not admit that any part
of the territory of this nation can be
cut off from the national state,"
said the Republican chief. "The
position of the Republican cabinet
always has been this. We are will-
ing to grant Ulster a parliament for
its own local affairs with as large a
measure of autonomy as is consistent
with unity and the sovereignty of the
Irish State. We are willing to give
similar parliaments to Munster,
Leinster and Connaught if the people
of these provinces desire them."

"But all must accept and operate
under the sovereign jurisdiction of
one supreme parliament to which
will be reserved certain well defined
national powers. There can be
only one sovereign Irish State."

De Valera clearly indicated his be-
lief that the Free State is tottering
and that the next general election
would result in the return of a
majority of Republicans to the Dail
Eireann.

"From our point of view the
Anglo-Irish treaty and all that has
flowed from it is illegal," continued
De Valera. "The Republic is the
sole legitimately established state in
Ireland. We deny the right of
foreign-derived authority in this
country. With a Republican major-
ity we would ignore all such author-
ity and resist every effort at inter-
ference by foreigners."

De Valera said the Republicans
elected to the Dail Eireann would re-
fuse to take the oath. He declared
if the Republicans obtained a
majority in the Dail Eireann they
would assume power and that in the
future the Dail Eireann would func-
tion as a Republican body.

To Notify Smith At Schenectady

Plans Changed for Notification Cer-
emony to Allow Governor to Broad-
cast His Acceptance—Ceremony
Set for Saturday Night.

By Telegram to The Freeman.

Albany, N. Y., Sept. 30.—Governor
Alfred E. Smith's official notification
of his renomination will take place in
the Baret Theater, Schenectady, next
Saturday night at 9 o'clock, it was
announced at the Executive Chamber
this afternoon.

Originally it was planned to have
the notification Thursday noon at the
National Democratic Club in New
York but the change was made so
that the ceremony could be broadcast
by the General Electric Company
through its station WGY.

Lieutenant-Governor George R.
Lunn of Schenectady, was largely in-
strumental in having a change made
in the notification plans.

Governor Smith had planned to go
to New York tomorrow, but it is now
expected he will remain at the Ex-
ecutive Mansion and complete the
work on his speech of acceptance.

CURRENT OFFERINGS AT THE THEATERS

The William Fox screen version of
"The Man Who Came Back" pleased
large audiences at the Opera House
Monday. The picture will again be
shown this evening. George O'Brien
and Dorothy Mackall have the prin-
cipal roles. O'Brien is said to do the
finest work of his career as the dis-
appointed young New Yorker, who be-
comes an Oriental outcast. Miss
Mackall as the dance hall girl, who
saves him is credited with a superb
piece of work.

At the Keeney Theater this eve-
ning, "Changing Husbands," featur-
ing Lorraine Joy will be screened. It
is a new Paramount picture.

At the Auditorium tonight Viola
Dana in "The Social Code." The
revelation of a social butterfly's soul.
How, as the web of circumstantial
evidence drew about one she loved,
she told the court a story that cost
her everything, yet, in the end won
her the greatest thing in the world.

SLIGHT EARTHQUAKE SHOCKS IN MAINE

By Telegram to The Freeman.

Ellisford, Maine, Sept. 30.—
Slight earthquake shocks were felt
here early today. Several persons
reported having been aroused from
their sleep by the tremors. At Rock-
land the shock reported to be of
more severe intensity rocked build-
ings about the city and awakened
people from their sleep. Portland
also reported slight tremors.

GIANT ZEPPELIN CANNOT START BEFORE OCTOBER 7.

By Telegram to The Freeman.

Washington, Sept. 30.—It will
not be possible to begin the trans-
Atlantic flight on the Z.R.-3 before
October 7, at the earliest, according
to a message received at the navy
department today from Captain
George W. Steele at Friedrichshafen,
Germany. The ship needs a general
overhauling, Steele said.

Parliament Will Face Two Issues

Irish Boundary Dispute and Anglo-
Irish Treaty Before House of
Commons, in Session After Seven
Weeks' Recess.

By Telegram to The Freeman.

London, Sept. 30.—Parliament re-
assembled today after a seven weeks'
recess. Its first business will be to
deal with the menacing boundary
dispute between Ulster province and
the Irish Free State. Next it will
take up the Anglo-Russian treaty.

Both these issues will test the
strength of the Laborite government.
Premier Ramsay MacDonald has
threatened to precipitate another
general election if the treaty is re-
pudiated.

The premier said every effort had
been made to obtain a settlement of
the Irish issue, but it has proved im-
possible.

Premier MacDonald appealed to
Commons to "pass the Irish bill with
such unanimity it will be an imperial
appeal to Ulster."

Former Premier H. H. Asquith,
a Liberal, promised to support the
measure.

Former Premier Stanley Bald-
win, a Tory, announced the Tories
will move amendments to the bill
when it reaches committee stage.

"No one wants the Anglo-Irish
treaty to be a dead letter," he added.

Normally the House of Commons
would have assembled October 28,
but the growing seriousness of the
Irish problem led to an earlier meet-
ing.

During the parliamentary recess
Premier MacDonald tried to settle
the Irish problem through direct
negotiation, but failed owing to the
refusal of the Ulsterites to accept a
boundary commission.

It was expected that Premier Mac-
donald would move second reading
of the bill empowering the govern-
ment to create a border commission
without Ulster's consent before to-
day's session ended. Despite the ex-
pected storm of opposition from the
Tory "die hards," government lead-
ers anticipate passage of the bill.

The real difficulty will come when
effort is made to enforce the de-
cisions of the commission. After
passage of the bill Commons probab-
ly will take a recess for a fortnight.
Then the Anglo-Russian treaty will
be taken up. This will be signal for
another storm.

The bitter controversy over the
Ulster Free State frontier arose from
Article 12 of the Anglo-Irish treaty,
signed on December 6, 1921. This
article states that the boundary shall
be drawn "in accordance with the
wishes of the inhabitants, so far as
may be compatible with economic
and geographical conditions."

Fresh Attacks in War in China

tack launched today.

4,000 Killed and Wounded.
Shanghai, Sept. 30.—Four thou-
sand persons have been killed and
wounded—the heaviest battle casu-
alty list in the history of Chinese
strife—but the battle lines outside
Shanghai remained essentially un-
changed today.

Machine guns played the heaviest
part in the night and day hammer-
ing of the Chekiang and Kiangsu
lines, with attack and counter at-
tack sending scores of wounded
streaming back to the field hospitals.

The next big engagement is ex-
pected at Sunk Kiang.
Several bridges have been dynam-
ited on the Hang Chow Railroad by
General Lu Yung-Hsiang's troops to
prevent the Kiangsu forces from
moving up the big guns to strength-
en their attempt to take Shanghai.

Diplomacy Wins For Japanese

League of Nations Compromise
Formula Gives Countries Right to
Appeal to League Council if They
Believe War Threatens.

By Telegram to The Freeman.

Geneva, Sept. 30.—The Japanese
dispute which threatened to wreck
the League of Nations' peace plans,
was virtually settled today when
Japan and Australia accepted a com-
promise formula dealing with the ag-
gressor clause of the arbitration pro-
tocol.

The formula in question, which is
based upon Article II of the League
of Nations covenant, was carefully
examined at a secret meeting of Brit-
ish, French and Japanese delegates.
Article II deals with international
disputes wherein war is threatened.
This formula gives Japan the consti-
tutional right, under the league co-
venant, to appeal to the League
Council, if she believes war is threat-
ened. It gives other members of the
league the same right.

An amendment will be drawn based
on the formula, for insertion in the
arbitration protocol.

The committee of three which ex-
amined the formula consisted of Sir
Cecil Harst, of England, M. Louch-
eur, of France and Signor Scialoja of
Italy.

Announcement was made that
these three, after careful examina-
tion of the formula, agreed in be-
half of their governments to accept
the principle that the league council
should attempt conciliation even after
an arbitration decision has been
rendered.

This was a victory for Japanese
diplomacy.

Japan's greatest accomplishment
was to change the protocol's defini-
tion of aggressor to say:

"A state can only be assumed to
be an aggressor if it has not previ-
ously submitted the question in dis-
pute to the League Council or to the
Assembly in accordance with Article
II of the League of Nations Coven-
ant."

The League Assembly will meet
in plenary session tomorrow morn-
ing to hear the protocol read by the
committee. Debate will then open.

The judicial sub-committee, upon
which both Japan and the British
dominions are represented met at 3
o'clock and unanimously adopted the
aggressor formula.

Chairman Comments on Changes.

M. Politis, of Greece, chairman of
the first commission, introduced the
formula with the following comment.

Two changes in articles five and six
of the arbitration protocol satisfy all
the legitimate Japanese demands
without weakening any of the given
security which other states should
obtain from the protocol.

"It is imperative to include in the
protocol the last chance a state in
dispute with another over domestic
questions should have to enable a
settlement of the quarrel through
peaceful means before being called an
aggressor."

"We accept the amendment be-
cause it does not impair the state's
sovereignty," said Sir Littleton
Groom, of Australia, in addressing
the commission.

Victim's Friend Tells of Tarring

By Telegram to The Freeman.

Fredrick, Md., Sept. 30.—The
state played its trump card in this
little town's tar and feather case to-
day when James Whipp, of Myers-
ville, Maryland, took the stand and
accused several of his neighbors of
participating in the tarring of pretty
Dorothy Grandon on a public road
on July 23.

Mrs. Mary Shank, whose husband
was often seen in the company of
Dorothy, already has pleaded guilty to
the tarring and feathering.

It was at Harry Leatherman, sta-
tion master of the Hagerstown and
Frederick Railroad Company, on
trial with Mrs. Shank, that Whipp
pointed his finger today.

Dorothy was seized by a mob of
50 men, stripped of her clothes,
beaten with a club and her naked
body covered with hot tar and
feathers. Whipp lived near the scene
where the tarring took place.

Others who testified were: Dor-
othy Grandon, Mrs. Shank, Mrs.
Whipp and Mabel Mills, 20-year old
girl who was with Dorothy when
she was tarred and feathered.

Mabel described how she and Dor-
othy were walking along the Myers-
ville road on the night of July 22.

"Several cars came up behind and
stopped near us," she said. "Mary
Shank got out and ran toward us.
She grabbed Dot Leatherman, who
was with her, gave her a club to
beat Dot. She hit Dot over the head
three times."

"Two men held Dot while Mrs.
Shank stripped her clothing off,"
Leatherman handed Mrs. Shank a
bucket of tar and she put it on Dor-
othy."

"The mob would not listen to Dor-
othy's plea for mercy," Mabel said,
"but began cursing her instead."
"One man said Dot ought to be
dragged through Myersville. An-
other said I ought to get the same
dose," Mabel said.

The Good Maxwell— The Good Friend of Its Owners

Tens of thousands of American
families look upon their good
Maxwell cars with a feeling akin
to positive gratitude.

For the good Maxwell
has enabled them to
regard the motor car as
something more than
merely a means of
transportation.

If you examine into the
basic reasons for such
performance, and for
Maxwell's economical, care-free
service, you discover that both
the new transmission and new
rear axle are strong and rugged
enough for a truck; that the
simple device of a platform
spring under the front end of
the motor, combined with the

balancing of reciprocating parts
to the fraction of an ounce, prac-
tically eliminates any sense of
vibration; that in pro-
portion to weight, it is
actually stronger than
cars costing two, three
or even four times as
much.

The good Maxwell is
thus fulfilling, with al-
most startling success,
the mission its makers
proclaimed four years ago, when
they announced that—"The new
and powerful organization now
manufacturing the good Max-
well is able to give and proposes
to give, motor car values so un-
mistakable that they cannot re-
main for a moment in question."

League Becomes Highest Court

Compromise in Japanese Crisis Will
Result in Giving League Prece-
dence Over World Court—United
States Not a Signatory to Protocol.

By Telegram to The Freeman.

Geneva, Sept. 30.—The League
of Nations will take precedence over
the World Court of Arbitration in
international disputes growing out of
domestic legislation, as the result of
a compromise reached here today in
the Japanese crisis.

It was an important victory for
Japan. Following the acceptance of
a compromise formula by Japan and
Australia an amendment to the ar-
bitration protocol was drawn up
meeting Japan's protests.

The League of Nations becomes a
court of last resort in international
quarrels arising from legislation by
any one state involving the rights
of citizens of another nation.

The United States, not being a
member of the league, will not be a
signatory to the arbitration protocol.

PERSONAL BUDGET AID TO SUCCESS THROUGH THRIFT

By S. W. Straus, President American Society for Thrift

One of the most successful
business men of our day recently
said: "Early in life, when a
poor boy, I formed the habit of
jotting down a record of every
penny I spent. This taught me
the value of system and fru-
gality. I soon
found myself able
to save a little
money. As I grew
I developed habits
of general thrift
from this simple
beginning, and,
with a small
amount of capital
thus available when
I reached the age
of maturity, I was
able to take ad-
vantage of oppor-
tunities that led to
subsequent success."

While it may seem a waste of
time to laboriously keep a record
of every cent one spends, it is a
fact that many of our success-
ful men hold themselves to this
rigid discipline.

Every business concern keeps
a strict account of every penny
received and spent, and a busi-
ness which transacted its affairs
in any other manner would be
most incapably managed. The
same principle should hold true
in the case of the individual.

Carelessness in small things
leads to carelessness in larger
affairs and likewise the careful
handling of small amounts of
money fits one

Constipation can ruin your health— get permanent relief with Kellogg's Bran

When clean and clear, the intestine is converting wholesome food into vigorous health. But when clogged by constipation, it generates poisons from the obstructed food that can lead to many serious diseases.

Kellogg's Bran sweeps, cleans and purifies the intestine. It has a natural, healthy action. It works exactly as nature acts. If eaten regularly, it is guaranteed to relieve permanently the most chronic cases of constipation, for your grocer will return your money.

Results with Kellogg's Bran are sure, for Kellogg's is ALL bran. Nothing but ALL bran can be 100 per cent effective. That is why Kellogg's Bran, cooked and krumbled, is endorsed by doctors everywhere. Eat it and you need never take another habit-forming drug or pill.

Kellogg's Bran, cooked and krumbled, should be eaten regularly—at least two tablespoons daily—in chronic cases, with every meal. You will enjoy eating it. Kellogg's Bran is a wonderful flavor, a delicious nut-like flavor. And this flavor is an exclusive Kellogg achievement.

There are many ways to enjoy Kellogg's Bran, cooked and krumbled. Eat it with milk or cream as a cereal. Sprinkle it over other cereals. Cook it with hot cereals. Look for the recipes on every package and try it in muffins, griddle cakes, bran bread, etc.

Bring back your health with Kellogg's Bran. Start today! Every member of your family should eat it. The leading hotels and clubs serve Kellogg's Bran in individual packages. It is made in Battle Creek, Sold by all grocers.

And Grandma Knows!

Hunt Deer Here In November

Season Open in Ulster County From November 1 to 15, Both Inclusive
—Season Opens in the Adirondacks October 15.

By Telegraph to The Freeman.
Albany, Sept. 30.—Within the next two weeks it will be up to the wise buck to take to the high ground and the tall timber. The deer hunting season will open in the Adirondack counties October 15 and continue until November 15, both inclusive, except in the towns of Salem, White Creek and Jackson in Washington county where the season is from November 7 to November 19, both inclusive.

The law provides that only wild deer having horns not less than three inches in length may be taken. Reports received by the Conservation Commission from its game protectors foreshadow a good season in most sections where deer are found. In some localities deer are decreasing as the result of over hunting and the killing of fawns and does. All protectors in counties inhabited by deer were instructed to report their personal observations as to the number and condition of deer in their districts.

Protector Jenkins of Thendara, Herkimer county, reports that deer in his district are decreasing due to the slaughter of does and fawns every fall. Protector Strough of Salisbury Centre, Herkimer county, reports deer signs numerous in the deer forests and Protector Fuller of Cold Brook, Herkimer county, says that deer are plentiful, especially outside the big woods.

In Lewis county, reports from Lowville, Harrisville and Lyons Falls are to the effect that deer are increasing but bear are decreasing. In some parts of the county they are almost exterminated. In St. Lawrence county, Protector Horton, Reed and Sullivan all report that both deer and bear are decreasing and Protector Hutchinson of Ogdensburg that there are very few deer and no bear in his district.

In Jefferson county, in the towns of Worth and Lorraine, Protector Aldrich reports deer more plentiful than usual and in the Copley tract, town of Antwerp, not as plentiful as usual.

Inspector Burmaster, whose districts include the counties of Clinton, Essex, Franklin and Warren, reports an increase in deer throughout his district except in Warren county, where there are fewer than in former years. Deer were very slow in getting into the red because of the slow, backward spring. Protectors in Clinton, Franklin and Essex counties report more deer seen this spring than usual—large numbers of bucks and many does with fawns. Protector Vosburgh saw two deer while standing on Stony Creek bridge near Corey's. Protector Wheeler reports that a fishing party on the middle branch of the St. Regis river counted 80 deer in two days.

In those parts of Oswego and Oneida counties inhabited by deer, Inspector Weston reports that signs of deer have been plentiful all through the spring and summer. Deer have been seen feeding on lettuce on the truck farms near the city of Oswego and fawns have been seen within the city limits of Rome. In Fulton county Protector Masten reports that deer are more plentiful than usual and seem to be coming out of the big woods. Many have been seen near Gloverville, Broadalbin and Mayfield. Protector Abrams has seen a great many deer tracks during the spring and summer and says the outlook for all hunting is good.

In Hamilton county, Protector Howland of Speculator, says that deer are more plentiful than last year and that he saw more fawn tracks than usual this spring. Protector Butler of Long Lake also reports that deer are more plentiful than usual. Protector Stanton of Wells reports that deer wintered unusually well and are more plentiful than in several years.

In Inspector Johnson's division most of which is outside of the Adirondack section and comprises the counties of Albany, Rensselaer, Saratoga, Washington, Columbia, Schoenectady and Greene, a summary of the reports received indicates that deer are more plentiful than usual. In Columbia county outside of the Green River and Ausleritz sections where the deer have suffered from overhunting, the supply is up to the average. In Saratoga county more deer are reported than during any previous season in the past five years. They wintered well and are in fine shape. In Washington county Protector Cruikshank reports that deer are plentiful in the eastern part of his district. In Rensselaer county deer are more plentiful than for several seasons past. In Greene county in the towns of Halcott, Jewett, Lexington, Hunter and Ashland, deer signs have been plentiful and deer have been seen by farmers among their cattle.

The counties in which the deer hunting season opens on October 15 are: Clinton, Essex, Franklin, Fulton, Hamilton, Herkimer, Jefferson, Lewis, Oneida, Oswego, Saratoga, St. Lawrence, Warren and Washington.

In Ulster, Sullivan, Rensselaer, Delaware, Columbia and Orange counties, the open season is from November 1 to November 15, both inclusive.

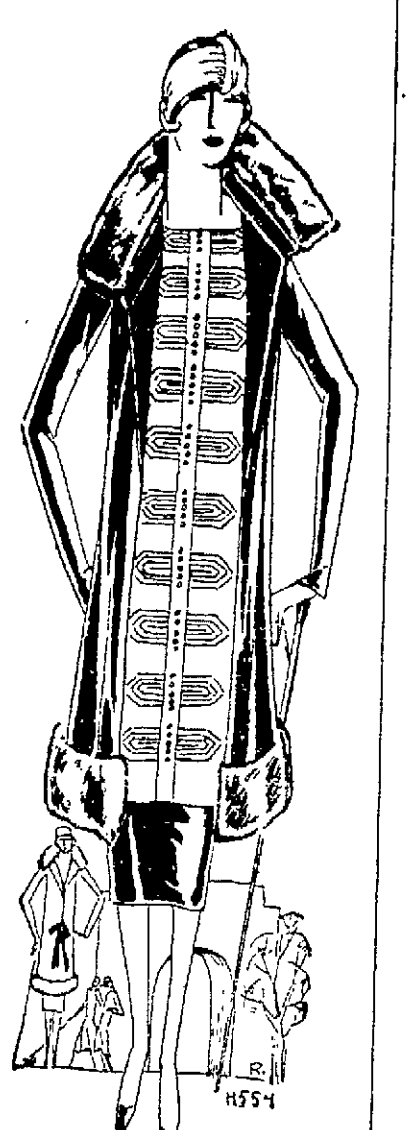

In Greene county, the open season is from November 1 to November 8, both inclusive.

In Dutchess county deer may be hunted with shotguns loaded with buck shot from November 1 to November 15 by the owner or lessee of the land on which deer are taken. The bag limit on deer is one deer in the open season.

As to the manner of taking, the conservation law provides that deer may be taken only on land. No jacklight, spotlight, deer trap or bait shall be used, made or set in a forest inhabited by deer or the roads traversing the same; nor shall any deer be taken by aid or use thereof. Deer shall not be hunted, pursued or killed by any dog or

A FROCK IN THE ENSEMBLE

(By Eleanor Gunn.)
A frock, designed by Beer and called "Camouflage," justifies its name. It is far from what it seems. Instead of being another, and rather elegant version of the ensemble, it is a dress of black broadcloth, the tunic-like gilet being of white satin embroidered in gold, the short black skirt obviously one does not always want to present such a striking front to the world, the coat is capable of a smart closing, crossing to the complete concealment of the rather elaborate gilet. It is a trick often played this season by smart coat designers to introduce a gilet, which may be of fur.

No matter how the effect is achieved, a woman who contrives to bear a resemblance to the sketch is sure of approval, but is, perhaps, even more confident of being correct if she wears a large, instead of small hat.

One of the most impressive style messages one got from attending the polo matches—quite the smartest display of fashions this fall—was that large hats were decided "in." Many of them were short backed, but large, for all that.

Another popular type of smart hat sponsored by the smartest was a Spanish sailor, of velvet, hatter's plush or moire, with two ostrich pompons balanced on the right brim. (Copyright, 1924, Fairchild.)

COLORS A BLONDE SHOULD WEAR.

Fashion is often kinder to one type of beauty than to another. Colors which are the dominating note of one season, may be all-flattering to the blonde type and trying to the brunette, or the other way about. But, one may say, there is always black—anyone can wear black. This is not true, unfortunately—everyone cannot wear black—to advantage.

In discussing the all-black hat, for instance, and the fashionable shades of the season, a woman who has made a careful study of such things, has the following sage observation, over which the blonde type may well ponder, for it concerns her above all others:

"On this type, unless her color be exceptionally high, due either to natural tendencies or to a lavish use of rouge, an all-black hat is 'deadening.' It will prove infinitely more pleasing if a touch of white, rose or red is added. Try placing a colored pin or ornament on the front of a hat and see how it brightens not only the hat, but the face."

Since the blonde has so much orange in her natural colorings, and since blue is the complement of orange, it goes without saying that blue is a very favorable color for the light-haired woman. By this is meant preferably the lighter shades, such as sky blue or powder blue.

Green in its light and medium tones is becoming to the pale blonde, while the more vividly colored type can wear the darker shades.

Hats of brilliant red are not good for the fair-haired woman, nor, generally speaking, will the new Venetian tulle be kind to her.

Burnt russet will look well on certain fair-haired women with average complexions, but will not prove so becoming to either very high or unusually pale complexions.

Yellow, orange and the violet are, as a rule, difficult for the blonde type. (Fairchild Fashion Service.)

Dancing every Tuesday and Saturday at White Eagle Hall.—Advertisement.

either sex. In the county of Dutchess only shot guns loaded with slugs or shot not smaller than buckshot shall be used in taking such deer.

No dog of either sex shall be taken into the Adirondack or Catskill Park or into forests inhabited by deer or harbored or possessed, therein unless the owner shall first obtain a license from the Conservation Commission.

Flood Damage In Pennsylvania

By Telegram to The Freeman.
Harrisburg, Pa., Sept. 30.—One thousand feet of the Reading railroad roadbed through Clark's Valley was washed away today by Stony Creek, which flooded the valley, isolating several villages.

Hundreds of telephone poles and several bridges across the creek were washed away, destroying all communication with Singersville, 14 miles from here.

Walkeymeyers Dam is threatened. The valley for more than a mile is covered with water, in places 20 feet deep. Thousands of dollars worth of crops and live stock are endangered. The Susquehanna River has been rising a foot an hour and if the rain continues, the weather man says there is danger of a serious flood. All tributaries of the Susquehanna in this region are beyond their banks. Many summer cottages are reported to be under water along Stony Creek. Yellow Breeches and the Conodognot.

Flood Kills Two.
By Telegram to The Freeman.
Mauch Chunk, Pa., Sept. 30.—Two more victims were added to the storm death toll here today when a retaining wall along Mauch Chunk Creek collapsed, the surging waters carrying Henry Herman, contractor and Lewis Eickhoff to their deaths.

Financial and Commercial

By Telegram to The Freeman.
New York, Sept. 30.—After early irregularity in which industrial and oil stocks showed the effect of the accumulation of heavy selling orders, the stock market today exhibited strength and firmness in every section of the speculative list, with railroad stocks again leading the way to higher prices.

That the call money market had not fully relaxed from the tight situation introduced yesterday by the necessity of preparing for October settlements, was seen in the marking up of renewal rates to 2 3/4 per cent.

Oil stocks flooded the market today and a large volume of sales, generally at fractionally lower prices, was reported. Cosden Oil sold down to 22 1/2 today, the lowest price since 1921. Stocks of the Standard Oil Companies were steady, with fractional changes in prices, mostly upward.

Some disappointment was expressed in the financial district at the failure of American Can directors to declare more than the regular quarterly dividend at 1 1/4 per cent and the stock sold down to 127 1/2 in the early trading after which it firmed. But it was unable to retain its higher position. United States Steel's strength was again in contrast to the market action of the independent steels; equipment stocks were inclined to be sluggish as also were the motors.

St. Louis and San Francisco preferred reached a new high for the year at 69, in anticipation of the directors' meeting tomorrow. The common stock and the listed bonds of this company also sold into new high ground.

Specialty stocks, like Cast Iron Pipe, Colorado Fuel, Davison Chemical, etc., sold in small volume at slightly higher prices.

Outside markets were steady, cotton declining slightly on hedge and professional selling, wheat advancing about two cents a bushel; silver at 70 1/2 cents an ounce, a new high for the year.

WOMAN PLUNGES TEN STORIES TO DEATH

By Telegram to The Freeman.
Boston, Sept. 30.—While a score of horrified spectators looked on, an unidentified middle-aged woman slipped and plunged 10 stories to her death in the Tremont building here today. The exact cause of the accident has not been determined. Martha Carpenter, of No. 27 Gainsboro street, an experienced elevator operator, collapsed as the switch but managed to shut off the power. As the woman's body hurtled down the shaft cries went up from a number of persons waiting for cars on the floors below.

For Cleaning Shoes

A strip of common carpet glued or fastened to a piece of wood makes a very serviceable instrument for removing mud and dirt from shoes without scratching the leather.

Davis Will Keep Busy Talking

By Telegram to The Freeman.
New York, Sept. 30.—A new speaking itinerary that will keep John W. Davis busy until the eve of election day was announced this afternoon at headquarters of the Democratic presidential nominee. He will go west again on October 6 and wind up his campaign with three speeches in New York city, the last on the night of November 1. Davis will speak at 4:30 p. m. in Schenectady on October 6, and at 8 p. m. in Albany on October 7, Syracuse on October 8, Buffalo on October 9, Cleveland on October 10, Indiana, Illinois, Missouri, Kansas and Tennessee, he will return to New York city October 27, and several New Jersey points yet to be designated.

New York state will be the chief battle ground of the presidential election for the remainder of the campaign, Davis decided. The Democratic national committee will order virtually an army of prominent speakers in to the Empire State and Davis will give fullest cooperation to Governor Al Smith in the latter's fight for re-election. Davis spent today resting at his Locust Valley, Long Island, home.

Indict Ten in Liquor Scandal

By Telegram to The Freeman.
Boston, Sept. 30.—Chief of Police Harold F. Congdon of Salisbury and ten other men were indicted today by the Federal grand jury in connection with the recent North Shore liquor scandal. Among the other prominent men indicted were Ruel S. Cetchall of the Salisbury board of selectmen, Captain Harry F. Burnham of the Plum Island life saving station and Albert R. Reynolds, a clothing dealer and former member of the Newburyport city council. The others indicted were Dennis J. Kelleher, a proprietor of the Hotel Dennis at Salisbury; Edward George, John Serberner, Antonio Caramago and Stephen Senia, of Salisbury, and Carl Voss, and John Grulo of Newburyport.

Evidence was offered to show Congdon, Burnham and Cetchall received \$100 for every boat load of liquor landed at the Merrimack river. The liquor, in large quantities, was introduced, and transported to Salisbury where Kelleher took charge of it. Reynolds' part in the affair was money left for him at Reynolds' store.

About the Folks

Joseph Netburn, the Broadway clothier, is visiting relatives at Rochester, N. Y.

Mrs. George Savatgy and son George of 324 Wall street left Saturday for a week's visit with relatives at Herkimer.

Laugh for Health

The diaphragm beats a tattoo on the stomach when you laugh. Every time you let go a good hearty laugh this diaphragm pops up and down on your liver, and helps to drive away the very thing that gives you the blues—bitterness.

Laughter is the best brand of pills on earth. Laughter strikes in when it comes from without, and instantly comes to the surface when it starts from within.

You may laugh because you are happy, and you may be happy because you laugh. It is the one thing where the cause is the effect and the effect is the cause. Any man can be a millionaire of good cheer.—Associate Contractor.

Another "Don Juan"

"I was not engaged to one of them, but I was on the verge of it with the whole five. They had letters of mine, but I followed the advice of my dying father, and never used the word marriage in any of them. I'd never given any of them presents—when you're starting business from what's little more than a nucleus you don't throw your money about! Tea or an ice at the confectioner's was as far as ever I went—and not that unless my hand was forced. But there had been discussions of the subject of love, and there also had been an opportunity offered what may be called preliminaries."—From "Tampin's Tales of His Family," by Barry Pain.

Women and Courtship

Man views it as a great testimony to his prowess at amour to yield up his liberty, his property and his soul to the first woman who, in despair of finding better game, turns her appraising eye upon him. But if you want to hear a merciless laugh, just present this masculine theory to a bridegroom at a wedding, particularly after alcohol and crocodile tears have done their disarming work upon her. That is to say, just hint to her that the bride harbored no notion of marriage until stormed into acquiescence by the moonstruck and impetuous bridegroom.—H. L. Mencken, in "In Defense of Women."

They Are Few

It is comforting at times to meet a man who isn't called an expert.—Duluth Herald.

Washouts Cause Railroad Wreck

By Telegram to The Freeman.
Quitman, Ga., Sept. 30.—Railway officials of the Atlantic Coast Line today were attempting to send rescue parties to a wrecked passenger train ten miles west of here, which, according to unverified reports, turned completely over as a result of washouts following two weeks of the heaviest rainfall South Georgia has experienced. Meagre reports here stated that all passengers are safe.

James J. Nulty died Monday evening at his home, 141 Greenhill avenue, following a brief illness. Mr. Nulty removed to this city from Maple Hill about eleven years ago and has been employed by the State Highway Department. Besides his wife he is survived by three sons, Edward of Jersey City and Thomas and James of this city, and five daughters, Mrs. Edward Cragan, Mrs. Frank Schum, Mrs. James Larkin and Catherine Nulty, all of this city, and Mrs. James Gayley of Jersey City. Funeral from the late residence on Thursday morning at 8:15 o'clock and from St. Joseph's Church at 9 o'clock, where a requiem Mass will be offered for the repose of his soul. Interment in St. Peter's cemetery, Rosendale.

George Fred Hazard, one of the best known and respected citizens of this city, died early Monday evening following a long illness. Mr. Hazard was born in this city, the son of the late David and Catherine Balzer Hazard and at an early age entered in the employ of the William B. Fitch Co., with whom he remained for 35 years. The past few years he has been employed by William Hiltbrant and was held in high esteem by his employer and all with whom he came in contact. He leaves his wife, who was Mary F. Zoller, one daughter, Miss Mary Hazard at home, three brothers, Leonard, and George Hazard of this city, William Hazard of Hempstead, Long Island, two sisters, Mrs. Andrew Weber of this city, and Mrs. Albert Smith of Hempstead, Long Island. Funeral private from his late home, 61 Wurts street Thursday afternoon. Friends desiring to view the remains may do so Wednesday evening. Interment in the family plot at Montrose cemetery.

Banker Opposes LaFollette Creed

By Telegram to The Freeman.
Chicago, Sept. 30.—Six thousand bankers assembled here for the semi-centennial convention of the American Bankers' Association today heard a denunciation of the constitutional changes advocated by Senator Robert M. LaFollette in his progressive platform; heard government ownership of railroads and other basic industries unequivocally opposed; heard "political panaceas" for agricultural relief assailed and fashion characterized as a "threat of impending disaster."

The speaker was Walter W. Head, president of the association, whose address opened the first general session of the convention. Head opened his address with a vigorous attack on "all radical proposals" and declared one of the greatest needs of the country today to be to repel the attacks now being made upon the integrity of the United States.

"We should—we must—oppose vigorously all efforts to give congress power to override decisions of the supreme court and thereby destroy the division of governmental power which is the inherent strength of our constitutional system," he said.

Turning to taxation Head gave statistics to show how taxation of every kind had steadily increased in the last few years.

"The Federal taxes in 1920," Head said, "aggregated more than five and one half billion dollars. This year, after strenuous efforts to reduce the war time peak, the total still exceeds three billions. State and local taxes have increased at an even greater rate. Taxation has become more than a problem—it is a threat of impending disaster."

"Nor is the burden of government limited to taxation. We are oppressed by a multiplicity of restrictive and administrative legislations and now find ourselves waging a defensive battle against plans and programs which would transfer still greater duties to government and which would hamper individual initiative still further. These efforts are particularly destructive at this time when the basic industries need careful guidance to avoid financial disaster."

This afternoon the program calls for an address by Dwight W. Morrow, of J. P. Morgan and Company and the appointment of a resolutions committee which will make its report at another general session tomorrow.

Growths of Mangroves Serve Good Purpose

The trees known as "mangroves" form dense thickets along the sea coast in the tropics of the old world as well as of the new. They are characterized by the production of man prop roots from the trunks and branches; these prop roots reach into the mud and form practically impenetrable tangles. They thus serve to hold the mud together and are said to act as natural sea walls, protecting the soil against the inroads of the sea. The bark of the tree is sometimes taken for its abundance of tanning material; otherwise the several species are of no economic importance.

In many of these species the roots branch repeatedly before reaching the mud, instead of growing straight down. The root divides into two branches, one of which soon dies away, while the other continues the growth. After extending for some distance this also divides into two, one of the branches persisting, and so on.

The Dutch botanist Van Leeuwen had an opportunity to study a mangrove tangle near Samarang, in Java, and he discovered the cause of the peculiar habit of root branching to be a small beetle. The female beetle lays her eggs near the tip of the root. The injury causes a new root to sprout out just above the tip and the old tip continues to grow.

Brings Back to Mind Days of Golden Youth

His youth was spent in a castle of dreams in an enchanted forest. He danced with the wood-nymphs in the dusk and leprechauns, laughing, whispered the secrets of the woods to him. The sun and the moon filled a wayside pool with gold for him.

One day a stranger in a scarlet coat told him of the gaudy cities and sang him the "Song of Clanking Gold," and out into the world with him he went, writes Whitelaw Saunders, in "All's Well."

Now he is old. The golden song has suddenly, dissonant harmonies, and his own scarlet coat hangs ragged and faded. A blossom in a market stall, swayed by a passing breeze, brings him dreams of long forgotten dances and in the park he hears the echoes of forest laughter. The oak tree whispered words but, somehow, he knows it is telling the legend of forgotten youth.

Poor Man Fainted

The man had just informed the Pullman agent that he wanted a berth. "Upper or lower?" asked the agent. "What's the difference?" asked the man.

"A difference of 50 cents in this case. The lower is higher than the upper. The higher price is for the lower. If you want it lower you'll have to go higher. We sell the upper lower than the lower. Most people don't like the upper, although it is lower on account of being higher. When you occupy an upper you have to get up to go to bed and get down when you get up. You can have the lower if you pay higher. The upper is lower than the lower because it is higher. If you are willing to go higher, it will be lower."

But the poor man had fainted.—Postal Spirit.

Engagement Announced.
Mr. and Mrs. Peter Donnelly of this city announce the engagement of their daughter, Maria R., to Paul G. Briggs of Syracuse.

Birthday Celebrated.
Gus Kohler, the well known carpenter of South Wall street, celebrated his sixtieth birthday by accepting the invitation of Mr. and Mrs. Myron Shuttis of Modena to spend the day with them. He was accompanied by a few friends and his family. Upon his return home in the evening he found his brother and sister and their immediate families at his home to help round out the day. The birthday cake was decorated with only six candles for the years have touched Mr. Kohler lightly.

Dixon-Sullivan.
The marriage of Miss Agnes Sullivan of 2531 Sixth avenue, Troy, to Edwin J. Dixon of South New Berlin, took place Saturday afternoon at St. Peter's Church rectory, Troy, the Rev. William H. Walsh, officiating. The bridesmaid was Miss May Guinan of Troy and the bridegroom was attended by John Stafford of Maine. The bride was gowned in cocoa colored crepe trimmed with fillet and beads and carried Ophelia roses. The bridesmaid wore olive colored crepe trimmed with fur and carried Columbia roses. After the wedding the bridal party motored to the Ten Eyck at Albany, where there was a dinner. After a motor trip to the Thousand Islands, Mr. and Mrs. Dixon will be at home after October 15, at 167 Clinton avenue, Kingston.—Albany Knickerbocker Press.

Ship's "Mate"
Our word "mate," the ship's officer, is derived from "gemacca," meaning an equal or companion. Today the word mate is also used in a slang sense for friend or comrade. The sea sense of the word is that the mate is the equal to the captain in capacity, able to assist him, and, if necessary, to take his place.

The Key to Success
Folks who don't take themselves seriously, but who take their very seriously, are bound to succeed.

Strength of Contenders in Baseball Classic

Senators' Outfield and Infield at an Advantage With Giants' Pitching Staff Ranking Better—Managers to Play Important Part.

By Telegram to The Freeman.

New York, Sept. 30.—The day was not so far distant when Washington merely was a place where they had a president, two ball players and a monument. But that day is not now. The Washington Senators not only are champions of the American League, by virtue of as game a fight as ever a ball club waged, but they may be world's champions-in-prospect, for all the writer or anyone else knows. They are to meet the New York Giants in the 1924 world series, beginning on Saturday, and the winner is as easy to guess as the probable weather on next Tuesday a week.

Neither has a great ball club. They have too much in the way of paper profits, to wit: Apparent strength covering actual weakness. The Giants for example had a fine infield when Kelly, Frisch, Jackson and Groh were playing the positions up to their best form. But with Terry at first base and Kelly in centerfield, the defense of both positions is weakened and little gained in other respects. It may be that Kelly will be returned to his natural position for the series. In that case, the infield's efficiency will be increased but it will not be fool proof.

Groh is slipping and his efficiency figures to be impaired by his recent injury. Neither will Frisch be benefited by the fact that he will tote a dislocated finger into the series.

Certainly, the Senators possess the more compact infield of the two, with Judge and Pecknapp having a clear lead over the rival Giants occupying the same positions, regardless of whether Kelly appears in the infield or outfield. Frisch, injured, is a better second baseman and altogether a more valuable ball player than Harris, but not enough to make a great difference in a brief series, particularly if the Giant star is not at his best.

Groh is likely to hit better than Bluege. On the other and remaining hand, Bluege may be the star of the series. He is young and whole, while the Giant third baseman is a fragile veteran, who may warp his wishbone on the first hard play he attempts.

The Senators' paper profits are found in the fact that they are supposed to have the better pitching staff. Perhaps they did in mid-summer. But no one could help observing that, in the latter stages of the race, Washington was winning many of its games in which the opposition scored from five to eight runs per game. That spoke well of the Senators' punch and fighting spirit but it did not savor of championship pitching. Johnson is the star of the outfit; yet even he seemed to be overworked during the closing games of the season. Zachary and Mogridge are good left handers. They were better in August or at least the records indicate they were. Marberry won a lot of early games and undoubtedly is a first class relief man. However, the Washington staff looks none too stable at this writing.

And the present, not the past, is the time when they plan to play this world series. The Giant staff of Bentley, Barnes, McQuillan, Neft and Watson is the same one that was mangled by the Yankees in the 1923 series. Then again, it is quite different. Bentley is a much improved pitcher for his extra year on the big time. Barnes is a consistent winner. Neft and McQuillan have pitched excellent ball recently.

I think that, if anything, the Giants can look for more consistent pitching than the Senators, except when Walter Johnson is working. I also think that the McGraw entry has the more consistent attack. Behind the plate, Ruel has developed into one of the best catchers in baseball and has a clear lead over either Gowdy and Snyder of the Giants. But it is my observation that catchers seldom decide a world series, they make too few mistakes, even the worst of them. Neither Gowdy nor Snyder comes within that definition.

I like the Senators' outfield of Gossin, McNeely or Liebold, and Rice, better than any combination McGraw might start. It is understood that he favors Wilson, Kelly and Young, good hitters all, but outside of Young, not very sound defensively.

There is not enough difference in the two clubs to make any choice an absolute one. I happen to like the Giants. They will fight just as hard as any club extant and it is quite possible that they will outsmart the Washington club, with McGraw pulling the strings. Pitching and the breaks are the abiding factors. The Giants possible will get the first and force the second.

These two things are of far more importance than the fact that Washington happens to have a slightly better infield and outfield.

But, as I said before, neither is a great ball club. It is possible, in fact, that they were not the best clubs in their respective leagues, taking paper form in preference to results. They simply won because they refused to lose.

By having a bottle of ROYAL DIGESTO on hand you will be free from all worry and fear of indigestion. On sale at Connelly Drug Co., Ten Broeck Drug Store, McBride Drug Stores—Advertisement.

Brooklyn Team Here Tomorrow

With the Brooklyn Nationals definitely out of the National League pennant race, the much talked of game between the Colonials and the Robins is now a certainty. The Robins were booked to play here October 1st, provided they did not win the National League pennant. The Giants' victory Saturday and the Robins' loss clinched the pennant for the Giants and the Robins are to go on a barnstorming trip through several Eastern states.

The entire line-up will appear in the game with the Colonials Wednesday. Jack Fournier will cover first, Andy High, second; Johnny Mitchell, short; Milt Stock, third; Olson, Brown and the brilliant Sack Wheat in the outfield. Dazzy Vance, National League speed king is slated to be on the mound against the locals and Hank DeBerry on the receiving. This is the team that carried the fight to the Giants all through the last month of the race.

The Colonials will have the same line-up that faced the D. & H. General Sunday. Bud Culliton, now with the Pittsburgh Pirates will hurl. This will probably be the fans last chance to see their favorite in a local uniform. Bud held the Pirates scoreless for nine innings this season and he can be depended upon to give Brooklyn all sorts of trouble. Bob Fitzsimmons will be behind the bat Wednesday and Pete Jordan will umpire on the base paths. The game will start at 3:30 sharp.

"Y" Alleys to Open Wednesday

The bowling alleys at the Y. M. C. A. will open for the season Wednesday evening at 6 o'clock and remain open until 10:30 o'clock that evening. The bowler rolling the highest score that evening on the alleys will be presented with a bronze medal.

This season the "Y" alleys will be in charge of Arthur Rice, and he is contemplating holding a number of bowling contests on the alleys. The alleys have been overhauled and placed in excellent shape for the season.

STATE HIGHWAY WORK.

Week's Progress in New Construction and Reconstruction.

The following bulletin shows the highway construction accomplished during the week ending September 26, and progress of new construction and reconstruction of state highways.

Number of contracts under way	200
Number of pavements being laid	92
Number of men employed by contractors	7,837
Square yards of pavement completed during week	293,063
Square yards of pavement completed during season	4,152,266
Maintenance forces employed by the state	4,584

The above yardage represents 29.52 miles of completed pavement for the week and a total of 410.37 for the season.

The return of good weather has enabled the contractors to greatly increase their progress during the past week. The yardage for this week has been exceeded only by one other week during the summer.

GIANTS TO PLAY TWO EXHIBITION GAMES.

By Telegram to The Freeman.

New York, Sept. 30.—The New York Giants will play an exhibition game today in New Haven with the Eastern League club of that city, weather permitting, and tomorrow will do their stuff before the inmates of Sing Sing.

On Thursday they will entrain for Washington at 3:30 p. m., after a morning workout at the Polo Grounds, and the following day will practice at the Senators' park in preparation for the opening game of the world series there on Saturday.

FRISCH AND GROH REPORTED IMPROVING.

By Telegram to The Freeman.

New York, Sept. 30.—The condition of Frank Frisch and Heinie Groh, injured infielders of the New York Giants, was reported today as improved. Frisch is regarded as an almost certain starter at second base for the Giants in Saturday's opening but Groh's ability to play will not be ascertained until he attempts to place some strain upon his injured leg.

In the event that Groh fails to respond, Fred Lindstrom, recruit infielder, will occupy third base.

TAGGING ALL THE BASES IN THE MAJOR LEAGUES

Washington finally nailed down the lid on the American League pennant chase by turning in a well played game for a 4 to 2 victory over the Red Sox.

Emil Yde, southpawed for six innings only, but hung up his eighteenth victory of the season when Sonner stopped the Cubs, Pittsburgh winning 5 to 4.

The White Sox tossed an odd assortment of rookies into the contest with Detroit and got away with it, winning 16 to 6.

Ellenville Five to Reorganize.

The Ellenville Wanderers will again organize a basketball team to represent Ellenville this coming season. Among those who will strive for a position on the quintet are: Vernon Kelder, Fred Taylor, Miford Traphagen, Tutbill McDowell, Arthur Wright, Lloyd Wilklow, Preston Rippert, Harold Rippert, John Bonomi and George Barclay.

Washington Wins First American League Pennant.

Under the marvelous guidance of Stanley ("Bucky") Harris, the youngest manager in the major baseball leagues, the Washington Club has won its first American League pennant. In the front row, left to right, the players are: No. 1, Zahner; No. 2, Brown; No. 3, Hargrave; No. 4, Liebold; No. 5, Johnson; No. 6, Schacht, club comedian; No. 7, McNeely; No. 8, Altrock, club comedian; No. 9, Olson; No. 10, Martin, trainer. In the middle row, left to right, are: No. 11, Russell; No. 12, E. J. Beckenbaugh; No. 14, Harris, manager; No. 15, Vance; No. 16, Rice; No. 17, Tase, and No. 18, Mogridge. Back row, left to right: No. 19, Marberry; No. 20, Miller; No. 21, Ogden; No. 22, Martins; No. 23, Johnson; No. 25, Gossin; No. 26, Schirer; No. 27, Lefler, and No. 28, Taylor.

Helped Washington Win First Pennant

Leon "Goose" Gossin, left fielder and batting demon of the Washington Club, helped the Senators materially to win their first American League pennant.

Helped Washington Win First Pennant

Joe Judge, one of the best first basemen in the game, helped the Washington Senators materially to win their first American League pennant.
